TARBLE LIMESTONE ENTERPRISES' DESIGNATION OF ALTERNATE ROUTE

Tarble Limestone Enterprises ("Tarble"), by its attorneys, Hinshaw & Culbertson LLP and pursuant to the December 14, 2012 Case Management Plan Order, provides the following designation of alternative routes.

1. The Stop the Power Lines Coalition ("Coalition") has filed a motion to amend the December 14, 2012 Case Management Plan Order to eliminate the requirement that Staff and Intervenors designate an alternative route by December 31, 2012 and the requirement that parties identify all affected landowners not already affected by either ATXI's primary or alternative route. The Coalition's motion requested, in the alternative, an extension until February 11, 2013 to file the alternative route designation information.
2. No ruling has been issued with respect to the Coalition's motion.
3. In accordance with the existing order, Tarble states that it contemplates filing testimony supporting ATXI's designated alternative route for the segment of the proposed 345 kV transmission line from the Mt. Zion substation to the Kansas substation and from the Kansas substation to the Indiana State line.

4. Tarble reserves the right to withdraw this designation, amend it, or identify additional alternate routes in accordance with any future case management or other order issued in this proceeding.

Respectfully submitted,

Dated: December 31, 2012
