Docket No. 12-0598

STOP THE POWER LINES COALITION’S DESIGNATION OF ALTERNATE ROUTE

Stop the Power Lines Coalition (“Coalition”), by its attorneys, Hinshaw & Culbertson LLP and pursuant to the December 14, 2012 Case Management Plan Order, provides the following designation of alternative routes.

1. The Coalition has filed a motion to amend the December 14, 2012 Case Management Plan Order to eliminate the requirement that Staff and Intervenors designate an alternative route by December 31, 2012 and the requirement that parties identify all affected landowners not already affected by either ATXI’s primary or alternative route. The Coalition’s motion requested, in the alternative, an extension until February 11, 2013 to file the alternative rate designation information.

2. No ruling has been issued with respect to the Coalition’s motion.

3. In accordance with the existing order, the Coalition states that it contemplates filing testimony supporting ATXI’s designated alternative route for the segment of the proposed 345 kV transmission line from the Kansas substation to the Indiana State line.
