<b>AMEREN TRANSMISSION COMPANY OF ILLINOIS</b>	§	
	§	<b>Docket No. 12-0598</b>
<b>Petition for A Certificate of Public Convenience and</b>	§	
<b>Necessity, pursuant to Section 8-406.1 of the Illinois Public</b>	§	
<b>Utilities Act</b>	§	

**CITY OF CHAMPAIGN'S  
DESIGNATION OF ALTERNATIVE ROUTE**

Pursuant to the Case Management Order issued December 14, 2012, the City of Champaign (Champaign) files this designation of alternative route for the Rising to Sidney 345 kV transmission line.

1. This designation is subject to Champaign's Response to Stop the Power Lines Coalition's Motion to Amend Case Management Order in which Champaign agreed that the requirement for intervenors to file an alternative route is inconsistent with the Public Utilities Act section 8-406.1, and that the required filing deadline was unreasonable.
2. This designation is subject to the receipt by Champaign of responses to data requests to Ameren Transmission Company of Illinois, the answers to which may clarify issues for Champaign and may cause Champaign to alter, amend, or modify this designation.
3. Champaign reserves the right to modify, amend, change, or withdraw its designation of alternative route or identify another alternative route.
4. ATXI's route from Rising to Sidney should, to the extent possible, follow the route approved by the Illinois Commerce Commission in its final order issued August 15, 2012, in Docket No. 12-0080, from Rising to the Southwest Campus Substation and then from the Substation following the existing transmission line to the proposed Sidney Substation.

5. Attached to this designation is Ameren Illinois's late filed exhibit in Docket No. 12-0080 showing the route from Bondville to the Southwest Campus substation and listing the affected landowners as filed by Ameren in Docket No. 12-0080. ATXI's Petition Exhibit A (Part 5 of 5) shows what is designed as an existing 138 kV line from the Southwest Campus substation to the Sidney substation.

Respectfully submitted,
