14 **A:** **1652 N. 300th Avenue, Plainville, IL 62365. PIN: 18-0-0239-000-00 a true, accurate,**
15 **and correct map of this parcel is attached hereto as Exhibit 1 (hereinafter referred to as the**

19 **Q:** How is the Property currently used?

20 **A:** **Grain farming and pasture for cattle.**

21 **Q:** Are there any building(s) and/or structure(s) on the Property?

22 **A:** **Yes. Machine shed, home, and a grain bin.**

23 **Q:** Is there any revenue that is earned from the Property, if so what is the revenue?

24 **A:** **Yes. It varies depending on the crop yield. Additionally, due to the pasturing of**
25 **cattle I am unable to provide an estimate.**

26 **Q:** What is the quality of the soil on the Property?

31 **A: Yes.**

32 **Q: Do you oppose the entire length of the primary route?**

33 **A: Yes.**

34 **Q: What is the basis of your opposition to the primary route?**

35 **A: I am concerned about the transmission lines and how they will affect the value of the**
36 **land, the loss of income, difficulty for tenant farming, and planting crops. Additionally, I**
37 **am concerned about our fences being ruined on our property.**

38 **I also have concerns relating to soil and field compaction. Based on my personal**
39 **experience, compaction could affect obtaining a decent soil and ultimately affect the cash**
40 **rent price. Furthermore, I have concern about damage to the drainage tiles which could be**
41 **impacted by the transmission lines.**

42 **In addition to these concerns I believe the transmission lines will affect the ability to**
43 **conduct aerial spraying as it would compromise the ability to access the property, and**
44 **cause safety concerns for the pilot. I also believe that a tower/pole on our property would**
45 **affect the ability to mow. I mow my property and am concerned about hitting the pole**
46 **which creates a health hazard as well as causing potential damage to my property.**

47 **Q: What is the expected financial loss from the use of the Property as a result of the primary**
48 **route?**

49 **A: I am unable to give an estimate due to the variance of crop yield.**

50 **Q: What is the proximity of the building(s) and/or structure(s) on the Property to the primary**
51 **route proposed by ATXI?**

52 **A: Approximately three-eighths of a mile.**

53 **Q: What interference will the primary route have with the current use of the Property?**

54 **A: Loss of income from crops and the value of ground as well as the disruption to the**
55 **well-being of cattle, the natural timber, berries, and mushrooms that grow on the Property.**

56 **Q: Are you in favor of ATXI utilizing existing right of ways for the ATXI transmission line?**

57 **A: Yes.**

58 **Q: Please identify any other party or individual who may have an interest in the Property,**
59 **and explain the nature of such interest?**

60 **A: Keith Flesner, my nephew, is the tenant of the property. Keith does the farming on**
61 **the Property.**

62 Q: If there is an individual or party who has interest in the Property, does that party or
63 individual oppose the primary route proposed by ATXI?

64 A: Yes.

65 Q: Does the individual or party oppose the entire length of the primary route?

66 A: Yes.

67 Q: What is the basis for the individual's or party's opposition to the primary route?

68 A: **The tenant farmer would lose ground to farm and thus lose income.**

69 Q: Does this conclude your testimony?

70 A: Yes.
