RE: Conservation Compliance Status Reviews  
Farm 3113, Tract 4538

Dear Barbara and Magdi,

On May 24, 2012, I conducted a conservation compliance status review as a Designated Conservationist for the Natural Resources Conservation Service (NRCS), on Tract Number 4538 to review your implementation of an approved conservation system and to ensure your continued compliance with the HELC provisions.

After evaluating your present cropping system in comparison with the soil protection requirements for HEL cropland, I have found that the soil erosion level for the cropland on Tract Number 4538 is within the allowable standard as provided at 7CFR 12.23(h) and National Food Security Act Manual (180-V-NFSAM) Part 512.0.

If you have questions about the review, please contact me at (217) 442-8511 Ext. 3.

Thank you for your assistance and participation in USDA programs.

Sincerely,

A handwritten signature in black ink that reads "Erin Busscher".

Erin M. Busscher  
District Conservationist  
Danville Field Office
