

1
2 Map of power lines southeast of Urbana, IL as determined by the Ragheb Family through field
3 reconnaissance from public roads via ground vehicle. 138 kV lines are presented in yellow, 345
4 kV in blue, and 69 kV in white.

5
6
7

Existing 69 kV AC power line running Easterly along the South line of Section 27, Philo Township that was nearly entirely omitted from ATXI's maps.

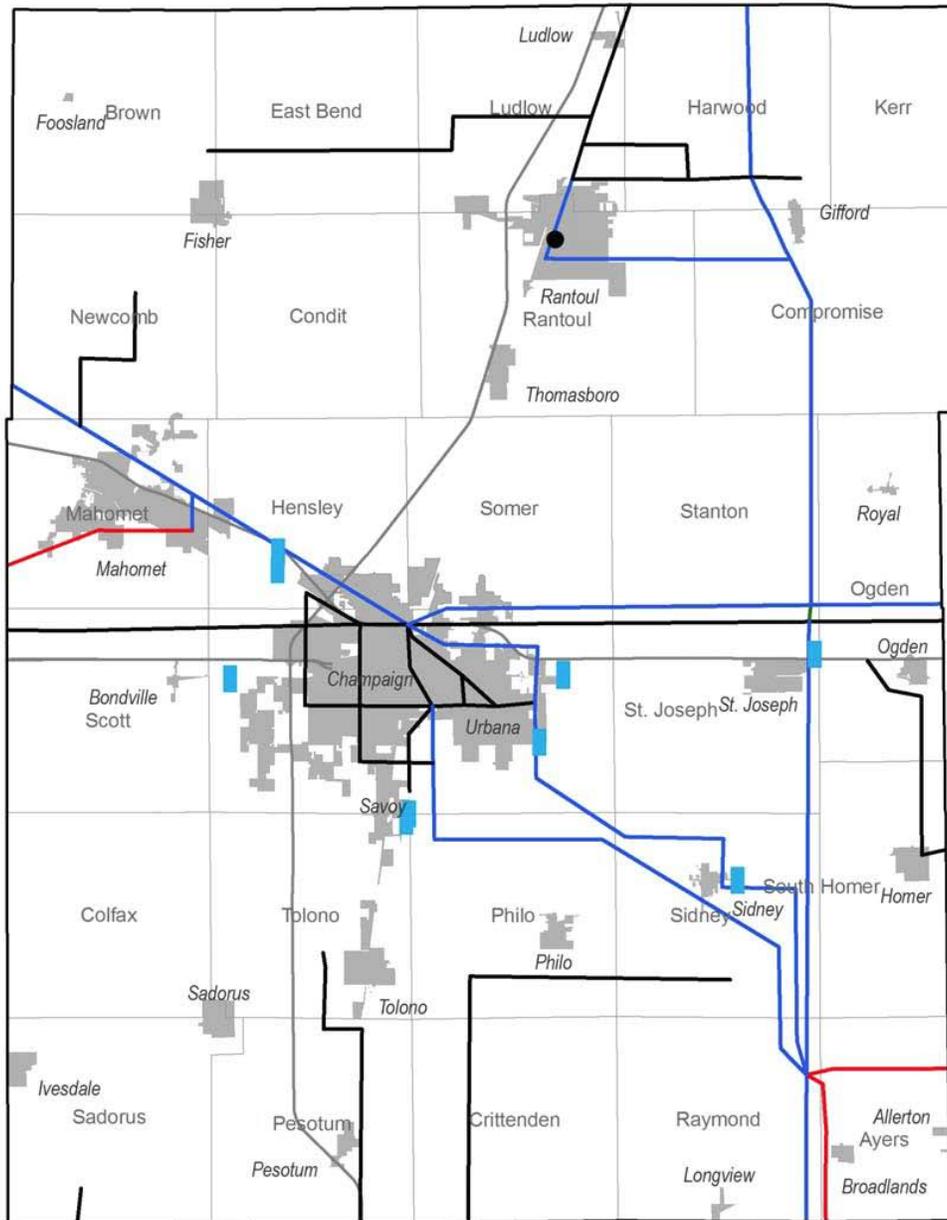

8
9
10

Existing 69 kV AC power line running Easterly along the South line of Sections 30 and 29 of Sidney Township that was nearly entirely omitted from ATXI's maps.

11
12 Existing intersection of 69 kV AC power line running Easterly along the South line of Section
13 27, Sidney Township with Ameren 138 kV AC power line running Northerly towards Sidney.

14
 15
 16

Map of Champaign County electric distribution facilities clearly depicting a 69 kV power line that was nearly entirely omitted from ATXI's maps

17
18 Zoomed in and unmodified portion of one of ATXI's maps of existing transmission lines in
19 Champaign County showing very incorrect paths of 138 kV lines, incorrect approaches of those
20 138 kV lines to the Sidney substation, and showing no trace of the 69 kV power line depicted in
21 all other portions of this Exhibit.

22
23
24

Photograph of the three nearly-parallel 138 kV power lines looking north from a public road that lies north of the existing Sidney electrical substation.
