## CERTIFIED MAIL - RETURN RECEIPT REQUESTED

February 27, 2013

Ameren Transmission Company of Illinois  
Ameren Corporate Headquarters  
Attn: Edward C. Fitzhenry, Ameren Services Company  
One Ameren Plaza  
1901 Chouteau Ave.  
St. Louis, MO 63166

To Whom It May Concern:

The United States Department of Agriculture – Natural Resources Conservation Service (USDA-NRCS) has identified two conservation easements that would be directly impacted by the **PRIMARY** route of Ameren Transmission Company of Illinois' proposed Illinois Rivers Transmission project. The proposal is to construct a 345,000-volt transmission from Palmyra, Missouri, to Sugar Creek, Indiana, including an approximately 41-mile line between Meredosia and Ipava and an isolated approximately 28-mile long line linking the Rising and Sidney substations in the Champaign area.

Specifically, the USDA-NRCS has identified a Wetlands Reserve Program (WRP) easement in Brown County, Illinois that would be bisected on the western edge of the WRP easement by the primary route. This WRP easement property is currently owned by The Nature Conservancy.

An Emergency Watershed Protection Program – Floodplain Easement (EWPP-FPE) located in eastern Clark County has also been identified as being directly impacted by the proposed primary route. This EWPP-FPE easement property is privately owned. It is also important to note that immediately north and south of this EWPP-FPE easement are two other EWPP-FPE conservation easements that would be considered in your study area. (Copies of the recorded Warranty Easement Deeds to the United States are included.) As the two recorded easement deeds show, the WRP easement located in Brown County and the EWPP-FPE easement located in Clark County were acquired by USDA-NRCS pursuant to laws enacted by Congress.

USDA-NRCS policy regarding infrastructure projects clearly states it is the project proponent's responsibility to prove to USDA-NRCS that impacts to the WRP conservation easement cannot be avoided. The authority to modify a WRP easement is very limited. EWPP-FPE easements must be avoided as USDA-NRCS has no authority under this program to modify the terms of the conservation easement. NRCS asserts that the rights the USDA acquired under these two easements programs are superior to rights that Ameren Transmission Company of Illinois might acquire to construct the proposed transmission line.

**WARRANTY EASEMENT DEED  
THIRTY-YEAR TERM**

---

**WETLANDS RESERVE PROGRAM  
AGREEMENT NO. 66-5A12-8-6017**

THIS WARRANTY EASEMENT DEED is made by and between THE NATURE CONSERVANCY, a nonprofit corporation organized and existing under and by virtue of the laws of the District of Columbia and having an office and principal place of business at 4245 North Fairfax Drive, Suite 100, Arlington, Virginia 22203, (hereafter referred to as the "Landowner"), Grantor, and the UNITED STATES OF AMERICA, by and through the Secretary of Agriculture, Washington, D.C. 20250, (hereafter referred to as the "United States"), Grantee. The Landowner and the United States are jointly referred to as the "Parties." The acquiring entity of the United States is the Natural Resources Conservation Service (NRCS). A cooperating Federal agency is the United States Fish and Wildlife Service of the Department of the Interior.

Witnesseth

Purposes and Intent. The purpose of this Conservation Easement is to restore, protect, manage, maintain, and enhance the functional values of wetlands and other lands, and for the conservation of natural values including fish and wildlife habitat, water quality improvement, flood water retention, groundwater recharge, open space, aesthetic values, and environmental education. It is the intent of the NRCS to give the Landowner the opportunity to participate in the restoration and management activities on the easement area.

Authority. This Conservation Easement acquisition is authorized by Title XII of the Food Security Act of 1985, as amended (16 U.S.C. § 3837), for the Wetlands Reserve Program.

NOW THEREFORE, for and in consideration of the sum of EIGHT HUNDRED SEVENTY-FOUR THOUSAND, EIGHT HUNDRED DOLLARS and NO/100 (\$874,800.00), the Grantor hereby grants and conveys with general warranty of title to the UNITED STATES OF AMERICA and its assigns, the Grantee, for thirty (30) years, all rights, title and interest in 972 acres of land, more or less, situated in Brown County, Illinois, which lands comprise the easement area described in Part I together with appurtenant rights of access to the easement area, but reserving to the Landowner only those rights, title and interest expressly enumerated in Part II. It is the intention of the Landowner to convey and relinquish any and all other property rights not so reserved. This easement shall constitute a servitude upon the land so encumbered, shall run with the land for thirty (30) years, and shall bind the Landowner, (the Grantor), its heirs, successors, assigns, lessees, and any other person claiming under them.

SUBJECT, however, to easements for established or existing roads and utilities.

SUBJECT ALSO to agreements and easements relating to the operation of a pumping station recorded in Miscellaneous Record 9, Page 313, and in Miscellaneous Record 9, Page 421, and also in Miscellaneous Record 9, Page 409.

SUBJECT ALSO to easements of Kamp Creek Channel and Levee, McGee Creek Drainage and Levee District, and Little Creek Drainage District.

LANDOWNER RESERVES the right to use existing private roads located on the above-described property and to maintain electric transmission lines within the rights-of-way for such existing private roads.

PART I. Description of the Easement Area. The lands encumbered by this easement deed, referred to hereafter as the easement area, are described in EXHIBIT A and depicted generally in EXHIBIT B, both of which are appended to and made a part of this easement deed.

TOGETHER with a right of access for ingress and egress to the easement area. Such a right-of-way for access purposes is through County Highway 12.

PART II. Reservations in the Landowner on the Easement Area. Subject to the rights, title and interest conveyed by this easement deed to the United States, the Landowner reserves:

A. Title. Record title, along with the Landowner's right to convey, transfer, and otherwise alienate title to these reserved rights.

B. Quiet Enjoyment. The right of quiet enjoyment of the rights reserved on the easement area.

C. Control of Access. The right to prevent trespass and control access by the general public.

D. Recreational Uses. The right to undeveloped recreational uses, including hunting and fishing, and including leasing of such rights to economic gain, pursuant to applicable State and Federal regulations that may be in effect at the time.

E. Subsurface Resources. The right to oil, gas, minerals, and geothermal resources underlying the easement area, provided that any drilling or mining activities are to be located outside the boundaries of the easement area.

PART III. Obligations of the Landowner. The Landowner shall comply with all terms and conditions of this easement, including the following:

A. Prohibitions. Unless authorized as a compatible use under Part IV, it is expressly understood that the rights to the following activities and uses have been acquired by the United States and are prohibited of the Landowner on the easement area:

1. haying, mowing or seed harvesting for any reason;
2. altering of grassland, woodland, wildlife habitat or other natural features by burning, digging, plowing, disking, cutting or otherwise destroying the vegetative cover;
3. dumping refuse, wastes, sewage or other debris;
4. harvesting wood products;
5. draining, dredging, channeling, filling, leveling, pumping, diking, impounding or related activities, as well as altering or tampering with water control structures or devices;
6. diverting or causing or permitting the diversion of surface or underground water into, within or out of the easement area by any means;
7. building or placing buildings or structures on the easement area;
8. planting or harvesting any crop; and,
9. grazing or allowing livestock on the easement area.

B. Noxious plants and pests. The Landowner is responsible for noxious weed control and emergency control of pests as required by all Federal, State and local laws. A plan to control noxious weeds and pests must be approved in writing by the NRCS prior to implementation by the Landowner.

C. Fences. Except for establishment cost incurred by the United States and replacement cost not due to the Landowner's negligence or malfeasance, all other costs involved in maintenance of fences and similar facilities to exclude livestock shall be the responsibility of the Landowner.

D. Taxes. The Landowner shall pay any and all real property and other taxes and assessments, if any, which may be levied against the land.

E. Reporting. The landowner shall report to the NRCS any conditions or events which may adversely affect the wetlands, wildlife, and other natural values of the easement area.

PART IV. Allowance of Compatible Uses by the Landowner.

A. General. The United States may authorize, in writing and subject to such terms and conditions the NRCS may prescribe at its discretion, the use of the easement area for compatible economic uses, including, but not limited to, managed timber harvest, periodic haying, or grazing.

B. Limitations. Compatible use authorizations will only be made if such use is consistent with the long-term protection and enhancement of the wetlands and other natural values of the easement area. The NRCS shall prescribe the amount, method, timing, intensity, and duration of the compatible use.

PART V. Rights of the United States. The rights of the United States include:

A. Management Activities. The United States shall have the right to enter onto the easement area to undertake, at its own expense or on a cost-share basis with the Landowner or other entity, any activities to restore, protect, manage, locate and mark the boundary, maintain, enhance, and monitor the wetlands and other natural values of the easement area. The United States, at its own cost, may apply to or impound additional waters on the easement area in order to maintain or improve wetlands and other natural values.

B. Access. The United States has a right of reasonable ingress and egress to the easement area over the Landowner's property, whether or not the property is adjacent or appurtenant to the easement area, for the exercise of any of the rights of the United States under this easement deed. The authorized representatives of the United States may utilize vehicles and other reasonable modes of transportation for access purposes.

C. Easement Management. The Secretary of Agriculture, by and through the NRCS, may delegate all or part of the management, monitoring or enforcement responsibilities under this easement to any entity authorized by law that the NRCS determines to have the appropriate authority, expertise and resources necessary to carry out such delegated responsibilities. State or federal agencies may utilize their general statutory authorities in the administration of any delegated management, monitoring or enforcement responsibilities for this easement. The authority to modify or terminate this easement (16 U.S.C. § 3837e(b)) is reserved to the Secretary of Agriculture in accordance with applicable law.

D. Violations and Remedies - Enforcement. The Parties agree that this easement deed may be introduced in any enforcement proceeding as the stipulation of the Parties hereto. If there is any failure of the Landowner to comply with any of the provisions of this easement deed, the United States or other delegated authority shall have any legal or equitable remedy provided by law and the right:

1. To enter upon the easement area to perform necessary work for prevention of or remediation of damage to wetlands or other natural values; and,
2. To assess all expenses incurred by the United States (including any legal fees or attorney fees) against the Landowner, to be owed immediately to the United States.

PART VI. General Provisions.

A. Successors in Interest. The rights granted to the United States shall accrue to any of its agents, successors, or assigns. All obligations of the Landowner under this easement deed shall also bind the Landowner's heirs, successors, agents, assigns, lessees, and any other person claiming under them. All the Landowners who are parties to this easement deed shall be jointly and severally liable for compliance with its terms.

B. Rules of Construction and Special Provisions. All rights in the easement area not reserved by the Landowner shall be deemed acquired by the United States. Any ambiguities in this easement deed shall be construed in favor of the United States to affect the wetlands and conservation purposes for which this easement is being acquired. The property rights of the United States acquired under this easement shall be unaffected by any subsequent amendments or repeal of the Wetlands Reserve Program. If the Landowner receives the consideration for this easement in installments, the Parties agree that the conveyance of this easement shall be totally effective upon the payment of the first installment.

PART VII. Special Provisions (if any) - None

TO HAVE AND TO HOLD, this Warranty Easement Deed is granted to the United States of America and its successors and assigns for thirty (30) years. The Landowner covenants that he, she or they are vested with good title to the easement area and will warrant and defend the same on behalf of the United States against all claims and demands. The Landowner covenants to comply with the terms and conditions enumerated in this document for the use of the easement area and adjacent lands for access, and to refrain from any activity not specially allowed or that is inconsistent with the purposes of this easement deed.

**Purposes and intent.** The purpose of this easement is to restore, protect, manage, maintain and enhance the functional values of floodplains, wetlands, riparian areas, and other lands; and for the conservation of natural values including fish and wildlife and their habitat, water quality improvement, flood water retention, groundwater recharge, open space, aesthetic values and environmental education; and to safeguard lives and property from floods, drought and the products of erosion. It is the intent of the United States to give the Landowner the opportunity to participate in the restoration and management activities on the easement area.

**Authority.** This easement deed acquisition is authorized by 16 U.S.C. 2203, as amended, and 7 U.S.C. 428a.

**NOW THEREFORE**, for and in consideration of the sum of **ONE HUNDRED EIGHTY FIVE THOUSAND SIX HUNDRED and NO/00 DOLLARS, (\$185,600.00)**, the Grantor hereby grants and conveys with general warranty of title to the UNITED STATES OF AMERICA and its assigns, the Grantee, forever, all rights, title and interest in **58 acres, more or less**, in **Clark County, Illinois**, and appurtenant rights of access to the easement area, but reserving the Landowner only those rights, title and interest expressly enumerated in Part II. It is the intention of the Landowner to convey and relinquish any and all other property rights not so reserved. This easement shall constitute an interest in real property and a servitude upon the land so encumbered, shall run with the land in **perpetuity**, and shall bind the Landowner, (the Grantor(s)), their heirs, successors, assigns, lessees, and any other person claiming under them.

**SUBJECT TO** Permanent Water Main Easement to Clark-Edgar Rural Water District recorded May 28, 1998 in Book 18 at Page 400 (Affects Tract 1); Permanent Water Main Easement to Clark-Edgar Rural Water District recorded May 28, 1998 in Book 18 at Page 397 (Affects Tract 3); Permanent Water Main Easement to Clark-Edgar Rural Water District recorded March 19, 2003 in Book 25 at Page 380 (Affects Tract 3); and, Permanent Water Main Easement to Clark-Edgar Rural Water District recorded February 28, 2005 in Book 27 at Page 209 (Affects Tract 3).

In a Special Certificate of Use and Consent dated May 3, 2010, executed by Paula Hingson, Acting for Ivan Dozier, Assistant State Conservationist for Programs, she stated that she has carefully considered the above noted title encumbrances and she certified that their existence and/or enforcement will not interfere with the restoration, maintenance or use of the WRP conservation easement area for wetland purposes or in any other way interfere with the purposes for which the wetlands reserve conservation easement is being acquired.

**PART I.** **Description of the Easement Area.** The lands encumbered by this easement deed, referred to hereafter as the easement area, are described in EXHIBIT A and depicted generally in EXHIBIT A-1, both of which are appended to and made a part of this warranty easement deed.

**TOGETHER** with a right of access for ingress and egress to the easement area across adjacent or other properties of the Landowner. Such a right-of-way for access purposes is described in EXHIBIT B, which is appended to and made a part of this warranty easement deed.

**PART II.**      **Reservations in the Landowner on the Easement Area.** Subject to the rights, title and interest conveyed by this easement deed to the United States, the Landowner reserves:

- A.    **Title.** Record title, along with the Landowner's right to convey, transfer and otherwise alienate title to these reserved rights.
- B.    **Quiet Enjoyment.** The right of quiet enjoyment of the rights reserved on the easement area.
- C.    **Control of Access.** The right to prevent trespass and control access by the general public subject to the operation of State and Federal Law.
- D.    **Recreational Uses.** The right to undeveloped recreational uses, including hunting and fishing and including leasing of such rights for economic gain, pursuant to applicable State and Federal regulations that may be in effect at the time.
- E.    **Subsurface Resources.** The right to oil, gas, minerals and geothermal resources underlying the easement area, provided that any drilling or mining activities are to be located outside the boundaries of the easement area.

**PART III.**    **Obligations of the Landowner.** The Landowner shall comply with all terms and conditions of this easement, including the following:

- A.    **Prohibitions.** Without otherwise limiting the rights of the United States acquired hereunder, it is expressly understood that the rights to the following activities and uses have been acquired by the United States and, unless authorized by the United States under Part IV, are prohibited of the Landowner on the easement area:
  - 1.    Haying, mowing or seed harvesting for any reason;
  - 2.    Altering of grassland, woodland, wildlife habitat, or other natural features by burning, digging, plowing, disking, cutting or otherwise destroying the vegetative cover;
  - 3.    Dumping refuse, wastes, sewage or other debris;
  - 4.    Harvesting wood products;
  - 5.    Draining, dredging, channelling, filling, leveling, pumping, diking, impounding or related activities, as well as altering or tampering with water control structures or devices;
  - 6.    Diverting or causing or permitting the diversion of surface or underground water into, within, or out of the easement area by any means;
  - 7.    Building or placing buildings or structures on the easement area;
  - 8.    Planting or harvesting any crop;
  - 9.    Grazing or allowing livestock on the easement area;
  - 10.   Disturbing or interfering with the nesting or brood-rearing activities of migratory birds; and,
  - 11.   Receiving any disaster assistance from the Secretary of Agriculture.

- B. **Noxious Plants and Pests.** The Landowner is responsible for noxious weed control and emergency control of pests as required by all Federal, State and local laws. A plan to control noxious weeds and pests must be approved in writing by the United States prior to implementation by the Landowner.
- C. **Fences.** Except for establishment cost incurred by the United States and replacement cost not due to the Landowner's negligence or malfeasance, all other costs involved in maintenance of fences and similar facilities to exclude livestock shall be the responsibility of the Landowner.
- D. **Taxes.** The Landowner shall pay any and all real property and other taxes and assessments, if any, which may be levied against the land.
- E. **Reporting.** The Landowner shall report to the United States any conditions or events which may adversely affect the wetland, wildlife and other natural values of the easement area.

**PART IV. Allowance of Compatible Uses by the Landowner.**

- A. **General.** The United States may authorize, in writing and subject to such terms and conditions the United States may prescribe at its discretion, the use of the easement area for compatible economic uses, including, but not limited to, managed timber harvest, periodic haying, or grazing.
- B. **Limitations.** Compatible use authorizations will only be made if, upon a determination by the United States, in the exercise of its discretion and rights, that the proposed use is consistent with the long term protection and enhancement of the floodplain, riparian, wetland, and other natural values of the easement area. The United States shall prescribe in writing, the amount, method, timing, intensity and duration of the compatible use.

**PART V. Rights of the United States.** The rights of the United States include:

- A. **Management Activities.** The United States shall have the right to enter unto the easement area to undertake, at its own expense or on a cost-share basis with the Landowner or other entity, any activities (including removal of levees or other hydrologic alteration) to restore, protect, manage, maintain, enhance, and monitor the floodplain and other natural values of the easement area. The United States, at its own cost, may apply to or impound additional waters on the easement area in order to maintain or improve wetland and other natural values.
- B. **Access.** The United States has a right of reasonable ingress and egress to the easement area over the Landowner's property, whether or not the property is adjacent or appurtenant to the easement area, for the exercise of any of the rights of the United States under this easement deed. The authorized representatives of the

United States may utilize vehicles and other reasonable modes of transportation for access purposes. To the extent practical, the United States shall utilize the access identified in Exhibit B.

- C. **Easement Management.** The United States may delegate all or part of the management, monitoring or enforcement responsibilities under this easement to any entity authorized by law that the United States determines to have the appropriate authority, expertise and resources necessary to carry out such delegated responsibilities. State or Federal agencies may utilize their general statutory authorities in the administration of any delegated management, monitoring or enforcement responsibilities for this easement.
- D. **Violations and Remedies - Enforcement.** The Parties, Successors and Assigns agree that this easement deed may be introduced in any enforcement proceeding as the stipulation of the Parties hereto and that the rights, title interest and prohibitions created by this easement constitute things of value to the United States. If there is any failure of the Landowner to comply with any of the provisions of this easement deed, the United States or other delegated authority shall have any legal or equitable remedy provided by law and the right:
1. To enter upon the easement area to perform necessary work for prevention of or remediation of damage to floodplain or other natural values; and,
  2. To assess all expenses incurred by the United States (including any legal fees or attorney fees) against the Landowner, to be owed immediately to the United States.

**PART VI. General Provisions.**

- A. **Successors in Interest.** The rights granted to the United States shall accrue to any of its agents or assigns. All obligations of the Landowner under this easement deed shall also bind the Landowner's heirs, successors, agents, assigns, lessees and any other person claiming under them. All the Landowners who are parties to this easement deed shall be jointly and severally liable for compliance with its terms.
- B. **Rules of Construction and Special Provisions.** All rights in the easement area not reserved by the Landowner shall be deemed acquired by the United States. Any ambiguities in this easement deed shall be construed in favor of the United States to effect the floodplain, wetland and conservation purposes for which this easement deed is being acquired. The property rights of the United States acquired under this easement shall be unaffected by any subsequent amendments or repeal of the Emergency Watersheds Program. If the Landowner receives the consideration for this easement in installments, the Parties agree that the conveyance of this easement shall be totally effective upon the payment of the first installment.

TO HAVE AND TO HOLD, this Warranty Easement Deed is granted to the United States of America and its assigns forever. The Landowner covenants that he, she or they are vested with good title to the easement area and will warrant and defend the same on behalf of the United States against all claims and demands. The Landowner covenants to comply with the terms and conditions enumerated in this document for the use of the easement area and adjacent lands for access, and to refrain from any activity not specifically allowed or that is inconsistent with the purposes of this easement deed.

**WARRANTY EASEMENT DEED  
THIRTY-YEAR TERM**

---

**WETLANDS RESERVE PROGRAM  
AGREEMENT NO. 66-5A12-8-6017**

THIS WARRANTY EASEMENT DEED is made by and between THE NATURE CONSERVANCY, a nonprofit corporation organized and existing under and by virtue of the laws of the District of Columbia and having an office and principal place of business at 4245 North Fairfax Drive, Suite 100, Arlington, Virginia 22203, (hereafter referred to as the "Landowner"), Grantor, and the UNITED STATES OF AMERICA, by and through the Secretary of Agriculture, Washington, D.C. 20250, (hereafter referred to as the "United States"), Grantee. The Landowner and the United States are jointly referred to as the "Parties." The acquiring entity of the United States is the Natural Resources Conservation Service (NRCS). A cooperating Federal agency is the United States Fish and Wildlife Service of the Department of the Interior.

Witnesseth

Purposes and Intent. The purpose of this Conservation Easement is to restore, protect, manage, maintain, and enhance the functional values of wetlands and other lands, and for the conservation of natural values including fish and wildlife habitat, water quality improvement, flood water retention, groundwater recharge, open space, aesthetic values, and environmental education. It is the intent of the NRCS to give the Landowner the opportunity to participate in the restoration and management activities on the easement area.

Authority. This Conservation Easement acquisition is authorized by Title XII of the Food Security Act of 1985, as amended (16 U.S.C. § 3837), for the Wetlands Reserve Program.

NOW THEREFORE, for and in consideration of the sum of EIGHT HUNDRED SEVENTY-FOUR THOUSAND, EIGHT HUNDRED DOLLARS and NO/100 (\$874,800.00), the Grantor hereby grants and conveys with general warranty of title to the UNITED STATES OF AMERICA and its assigns, the Grantee, for thirty (30) years, all rights, title and interest in 972 acres of land, more or less, situated in Brown County, Illinois, which lands comprise the easement area described in Part I together with appurtenant rights of access to the easement area, but reserving to the Landowner only those rights, title and interest expressly enumerated in Part II. It is the intention of the Landowner to convey and relinquish any and all other property rights not so reserved. This easement shall constitute a servitude upon the land so encumbered, shall run with the land for thirty (30) years, and shall bind the Landowner, (the Grantor), its heirs, successors, assigns, lessees, and any other person claiming under them.

SUBJECT, however, to easements for established or existing roads and utilities.

SUBJECT ALSO to agreements and easements relating to the operation of a pumping station recorded in Miscellaneous Record 9, Page 313, and in Miscellaneous Record 9, Page 421, and also in Miscellaneous Record 9, Page 409.

SUBJECT ALSO to easements of Kamp Creek Channel and Levee, McGee Creek Drainage and Levee District, and Little Creek Drainage District.

LANDOWNER RESERVES the right to use existing private roads located on the above-described property and to maintain electric transmission lines within the rights-of-way for such existing private roads.

PART I. Description of the Easement Area. The lands encumbered by this easement deed, referred to hereafter as the easement area, are described in EXHIBIT A and depicted generally in EXHIBIT B, both of which are appended to and made a part of this easement deed.

TOGETHER with a right of access for ingress and egress to the easement area. Such a right-of-way for access purposes is through County Highway 12.

PART II. Reservations in the Landowner on the Easement Area. Subject to the rights, title and interest conveyed by this easement deed to the United States, the Landowner reserves:

A. Title. Record title, along with the Landowner's right to convey, transfer, and otherwise alienate title to these reserved rights.

B. Quiet Enjoyment. The right of quiet enjoyment of the rights reserved on the easement area.

C. Control of Access. The right to prevent trespass and control access by the general public.

D. Recreational Uses. The right to undeveloped recreational uses, including hunting and fishing, and including leasing of such rights to economic gain, pursuant to applicable State and Federal regulations that may be in effect at the time.

E. Subsurface Resources. The right to oil, gas, minerals, and geothermal resources underlying the easement area, provided that any drilling or mining activities are to be located outside the boundaries of the easement area.

PART III. Obligations of the Landowner. The Landowner shall comply with all terms and conditions of this easement, including the following:

A. Prohibitions. Unless authorized as a compatible use under Part IV, it is expressly understood that the rights to the following activities and uses have been acquired by the United States and are prohibited of the Landowner on the easement area:

1. haying, mowing or seed harvesting for any reason;
2. altering of grassland, woodland, wildlife habitat or other natural features by burning, digging, plowing, disking, cutting or otherwise destroying the vegetative cover;
3. dumping refuse, wastes, sewage or other debris;
4. harvesting wood products;
5. draining, dredging, channeling, filling, leveling, pumping, diking, impounding or related activities, as well as altering or tampering with water control structures or devices;
6. diverting or causing or permitting the diversion of surface or underground water into, within or out of the easement area by any means;
7. building or placing buildings or structures on the easement area;
8. planting or harvesting any crop; and,
9. grazing or allowing livestock on the easement area.

B. Noxious plants and pests. The Landowner is responsible for noxious weed control and emergency control of pests as required by all Federal, State and local laws. A plan to control noxious weeds and pests must be approved in writing by the NRCS prior to implementation by the Landowner.

C. Fences. Except for establishment cost incurred by the United States and replacement cost not due to the Landowner's negligence or malfeasance, all other costs involved in maintenance of fences and similar facilities to exclude livestock shall be the responsibility of the Landowner.

D. Taxes. The Landowner shall pay any and all real property and other taxes and assessments, if any, which may be levied against the land.

E. Reporting. The landowner shall report to the NRCS any conditions or events which may adversely affect the wetlands, wildlife, and other natural values of the easement area.

PART IV. Allowance of Compatible Uses by the Landowner.

A. General. The United States may authorize, in writing and subject to such terms and conditions the NRCS may prescribe at its discretion, the use of the easement area for compatible economic uses, including, but not limited to, managed timber harvest, periodic haying, or grazing.

B. Limitations. Compatible use authorizations will only be made if such use is consistent with the long-term protection and enhancement of the wetlands and other natural values of the easement area. The NRCS shall prescribe the amount, method, timing, intensity, and duration of the compatible use.

PART V. Rights of the United States. The rights of the United States include:

A. Management Activities. The United States shall have the right to enter onto the easement area to undertake, at its own expense or on a cost-share basis with the Landowner or other entity, any activities to restore, protect, manage, locate and mark the boundary, maintain, enhance, and monitor the wetlands and other natural values of the easement area. The United States, at its own cost, may apply to or impound additional waters on the easement area in order to maintain or improve wetlands and other natural values.

B. Access. The United States has a right of reasonable ingress and egress to the easement area over the Landowner's property, whether or not the property is adjacent or appurtenant to the easement area, for the exercise of any of the rights of the United States under this easement deed. The authorized representatives of the United States may utilize vehicles and other reasonable modes of transportation for access purposes.

C. Easement Management. The Secretary of Agriculture, by and through the NRCS, may delegate all or part of the management, monitoring or enforcement responsibilities under this easement to any entity authorized by law that the NRCS determines to have the appropriate authority, expertise and resources necessary to carry out such delegated responsibilities. State or federal agencies may utilize their general statutory authorities in the administration of any delegated management, monitoring or enforcement responsibilities for this easement. The authority to modify or terminate this easement (16 U.S.C. § 3837e(b)) is reserved to the Secretary of Agriculture in accordance with applicable law.

D. Violations and Remedies - Enforcement. The Parties agree that this easement deed may be introduced in any enforcement proceeding as the stipulation of the Parties hereto. If there is any failure of the Landowner to comply with any of the provisions of this easement deed, the United States or other delegated authority shall have any legal or equitable remedy provided by law and the right:

1. To enter upon the easement area to perform necessary work for prevention of or remediation of damage to wetlands or other natural values; and,
2. To assess all expenses incurred by the United States (including any legal fees or attorney fees) against the Landowner, to be owed immediately to the United States.

PART VI. General Provisions.

A. Successors in Interest. The rights granted to the United States shall accrue to any of its agents, successors, or assigns. All obligations of the Landowner under this easement deed shall also bind the Landowner's heirs, successors, agents, assigns, lessees, and any other person claiming under them. All the Landowners who are parties to this easement deed shall be jointly and severally liable for compliance with its terms.

B. Rules of Construction and Special Provisions. All rights in the easement area not reserved by the Landowner shall be deemed acquired by the United States. Any ambiguities in this easement deed shall be construed in favor of the United States to affect the wetlands and conservation purposes for which this easement is being acquired. The property rights of the United States acquired under this easement shall be unaffected by any subsequent amendments or repeal of the Wetlands Reserve Program. If the Landowner receives the consideration for this easement in installments, the Parties agree that the conveyance of this easement shall be totally effective upon the payment of the first installment.

PART VII. Special Provisions (if any) - None

TO HAVE AND TO HOLD, this Warranty Easement Deed is granted to the United States of America and its successors and assigns for thirty (30) years. The Landowner covenants that he, she or they are vested with good title to the easement area and will warrant and defend the same on behalf of the United States against all claims and demands. The Landowner covenants to comply with the terms and conditions enumerated in this document for the use of the easement area and adjacent lands for access, and to refrain from any activity not specially allowed or that is inconsistent with the purposes of this easement deed.

**Purposes and Intent.** The purpose of this easement is to restore, protect, manage, maintain and enhance the functional values of floodplains, wetlands, riparian areas, and other lands; and for the conservation of natural values including fish and wildlife and their habitat, water quality improvement, flood water retention, groundwater recharge, open space, aesthetic values and environmental education; and to safeguard lives and property from floods, drought and the products of erosion. It is the intent of the United States to give the Landowner the opportunity to participate in the restoration and management activities on the easement area.

**Authority.** This easement deed acquisition is authorized by 16 U.S.C. 2203, as amended, and 7 U.S.C. 428a.

NOW THEREFORE, for and in consideration of the sum of ONE HUNDRED EIGHTY FIVE THOUSAND SIX HUNDRED and NO/00 DOLLARS, (\$185,600.00), the Grantor hereby grants and conveys with general warranty of title to the UNITED STATES OF AMERICA and its assigns, the Grantee, forever, all rights, title and interest in 58 acres, more or less, in Clark County, Illinois, and appurtenant rights of access to the easement area, but reserving the Landowner only those rights, title and interest expressly enumerated in Part II. It is the intention of the Landowner to convey and relinquish any and all other property rights not so reserved. This easement shall constitute an interest in real property and a servitude upon the land so encumbered, shall run with the land in perpetuity, and shall bind the Landowner, (the Grantor(s)), their heirs, successors, assigns, lessees, and any other person claiming under them.

SUBJECT TO Permanent Water Main Easement to Clark-Edgar Rural Water District recorded May 28, 1998 in Book 18 at Page 400 (Affects Tract 1); Permanent Water Main Easement to Clark-Edgar Rural Water District recorded May 28, 1998 in Book 18 at Page 397 (Affects Tract 3); Permanent Water Main Easement to Clark-Edgar Rural Water District recorded March 19, 2003 in Book 25 at Page 380 (Affects Tract 3); and, Permanent Water Main Easement to Clark-Edgar Rural Water District recorded February 28, 2005 in Book 27 at Page 209 (Affects Tract 3).

In a Special Certificate of Use and Consent dated May 3, 2010, executed by Paula Hingson, Acting for Ivan Dozier, Assistant State Conservationist for Programs, she stated that she has carefully considered the above noted title encumbrances and she certified that their existence and/or enforcement will not interfere with the restoration, maintenance or use of the WRP conservation easement area for wetland purposes or in any other way interfere with the purposes for which the wetlands reserve conservation easement is being acquired.

**PART I.** **Description of the Easement Area.** The lands encumbered by this easement deed, referred to hereafter as the easement area, are described in EXHIBIT A and depicted generally in EXHIBIT A-1, both of which are appended to and made a part of this warranty easement deed.

TOGETHER with a right of access for ingress and egress to the easement area across adjacent or other properties of the Landowner. Such a right-of-way for access purposes is described in EXHIBIT B, which is appended to and made a part of this warranty easement deed.

**PART II. Reservations in the Landowner on the Easement Area.** Subject to the rights, title and interest conveyed by this easement deed to the United States, the Landowner reserves:

- A. **Title.** Record title, along with the Landowner's right to convey, transfer and otherwise alienate title to these reserved rights.
- B. **Quiet Enjoyment.** The right of quiet enjoyment of the rights reserved on the easement area.
- C. **Control of Access.** The right to prevent trespass and control access by the general public subject to the operation of State and Federal Law.
- D. **Recreational Uses.** The right to undeveloped recreational uses, including hunting and fishing and including leasing of such rights for economic gain, pursuant to applicable State and Federal regulations that may be in effect at the time.
- E. **Subsurface Resources.** The right to oil, gas, minerals and geothermal resources underlying the easement area, provided that any drilling or mining activities are to be located outside the boundaries of the easement area.

**PART III. Obligations of the Landowner.** The Landowner shall comply with all terms and conditions of this easement, including the following:

- A. **Prohibitions.** Without otherwise limiting the rights of the United States acquired hereunder, it is expressly understood that the rights to the following activities and uses have been acquired by the United States and, unless authorized by the United States under Part IV, are prohibited of the Landowner on the easement area:
  - 1. Haying, mowing or seed harvesting for any reason;
  - 2. Altering of grassland, woodland, wildlife habitat, or other natural features by burning, digging, plowing, disking, cutting or otherwise destroying the vegetative cover;
  - 3. Dumping refuse, wastes, sewage or other debris;
  - 4. Harvesting wood products;
  - 5. Draining, dredging, channelling, filling, leveling, pumping, diking, impounding or related activities, as well as altering or tampering with water control structures or devices;
  - 6. Diverting or causing or permitting the diversion of surface or underground water into, within, or out of the easement area by any means;
  - 7. Building or placing buildings or structures on the easement area;
  - 8. Planting or harvesting any crop;
  - 9. Grazing or allowing livestock on the easement area;
  - 10. Disturbing or interfering with the nesting or brood-rearing activities of migratory birds; and,
  - 11. Receiving any disaster assistance from the Secretary of Agriculture.

- B. **Noxious Plants and Pests.** The Landowner is responsible for noxious weed control and emergency control of pests as required by all Federal, State and local laws. A plan to control noxious weeds and pests must be approved in writing by the United States prior to implementation by the Landowner.
- C. **Fences.** Except for establishment cost incurred by the United States and replacement cost not due to the Landowner's negligence or malfeasance, all other costs involved in maintenance of fences and similar facilities to exclude livestock shall be the responsibility of the Landowner.
- D. **Taxes.** The Landowner shall pay any and all real property and other taxes and assessments, if any, which may be levied against the land.
- E. **Reporting.** The Landowner shall report to the United States any conditions or events which may adversely affect the wetland, wildlife and other natural values of the easement area.

**PART IV. Allowance of Compatible Uses by the Landowner.**

- A. **General.** The United States may authorize, in writing and subject to such terms and conditions the United States may prescribe at its discretion, the use of the easement area for compatible economic uses, including, but not limited to, managed timber harvest, periodic haying, or grazing.
- B. **Limitations.** Compatible use authorizations will only be made if, upon a determination by the United States, in the exercise of its discretion and rights, that the proposed use is consistent with the long term protection and enhancement of the floodplain, riparian, wetland, and other natural values of the easement area. The United States shall prescribe in writing, the amount, method, timing, intensity and duration of the compatible use.

**PART V. Rights of the United States.** The rights of the United States include:

- A. **Management Activities.** The United States shall have the right to enter unto the easement area to undertake, at its own expense or on a cost-share basis with the Landowner or other entity, any activities (including removal of levees or other hydrologic alteration) to restore, protect, manage, maintain, enhance, and monitor the floodplain and other natural values of the easement area. The United States, at its own cost, may apply to or impound additional waters on the easement area in order to maintain or improve wetland and other natural values.
- B. **Access.** The United States has a right of reasonable ingress and egress to the easement area over the Landowner's property, whether or not the property is adjacent or appurtenant to the easement area, for the exercise of any of the rights of the United States under this easement deed. The authorized representatives of the

United States may utilize vehicles and other reasonable modes of transportation for access purposes. To the extent practical, the United States shall utilize the access identified in Exhibit B.

- C. **Easement Management.** The United States may delegate all or part of the management, monitoring or enforcement responsibilities under this easement to any entity authorized by law that the United States determines to have the appropriate authority, expertise and resources necessary to carry out such delegated responsibilities. State or Federal agencies may utilize their general statutory authorities in the administration of any delegated management, monitoring or enforcement responsibilities for this easement.
- D. **Violations and Remedies - Enforcement.** The Parties, Successors and Assigns agree that this easement deed may be introduced in any enforcement proceeding as the stipulation of the Parties hereto and that the rights, title interest and prohibitions created by this easement constitute things of value to the United States. If there is any failure of the Landowner to comply with any of the provisions of this easement deed, the United States or other delegated authority shall have any legal or equitable remedy provided by law and the right:
1. To enter upon the easement area to perform necessary work for prevention of or remediation of damage to floodplain or other natural values; and,
  2. To assess all expenses incurred by the United States (including any legal fees or attorney fees) against the Landowner, to be owed immediately to the United States.

**PART VI.** General Provisions.

- A. **Successors in Interest.** The rights granted to the United States shall accrue to any of its agents or assigns. All obligations of the Landowner under this easement deed shall also bind the Landowner's heirs, successors, agents, assigns, lessees and any other person claiming under them. All the Landowners who are parties to this easement deed shall be jointly and severally liable for compliance with its terms.
- B. **Rules of Construction and Special Provisions.** All rights in the easement area not reserved by the Landowner shall be deemed acquired by the United States. Any ambiguities in this easement deed shall be construed in favor of the United States to effect the floodplain, wetland and conservation purposes for which this easement deed is being acquired. The property rights of the United States acquired under this easement shall be unaffected by any subsequent amendments or repeal of the Emergency Watersheds Program. If the Landowner receives the consideration for this easement in installments, the Parties agree that the conveyance of this easement shall be totally effective upon the payment of the first installment.

TO HAVE AND TO HOLD, this Warranty Easement Deed is granted to the United States of America and its assigns forever. The Landowner covenants that he, she or they are vested with good title to the easement area and will warrant and defend the same on behalf of the United States against all claims and demands. The Landowner covenants to comply with the terms and conditions enumerated in this document for the use of the easement area and adjacent lands for access, and to refrain from any activity not specifically allowed or that is inconsistent with the purposes of this easement deed.

ATXI experienced any operational or maintenance issues or problems as a result of lime dust on transmission lines? If your answer is yes, please:

- a) Identify the quarry or facility that produced the lime dust and the location of the quarry or facility;
- b) Describe the transmission line and its location with respect to the quarry or facility producing the lime dust;
- c) Identify the issues or problems resulting from the lime dust on transmission lines;
- d) Describe the action that ATXI took to address the problem or issue; and
- e) State the amount or approximate amount of money that ATXI spent to address the problem or issue. If the solution involved increased maintenance costs, such as the regular scrubbing of insulators, please provide the resultant approximate annual increased cost of maintenance costs.
