Re: Ameren Illinois River Project

To Whom This May Concern:

We represent Marshall Township, in Marshall, Illinois. The Township board and all those represented oppose the Ameren Illinois River Project proposal to construct a transmission line through Clark County, which includes Marshall Township.

This project will be detrimental to many people as well as to our properties in the Township. It promotes negativity for construction of new homes and businesses in our area, thus decreasing our taxes. Through talking with many constituents of the township, we would like to express our concern and displeasure with the routes that you have chosen.

We are on record that this project is opposed by our township and its entirety.

Sincerely,

Dick Curran, Supervisor

Ron, Howe, Clerk

Wayne Hendrix, Road Commissioner

Brad Mars, Trustee

Donald Guinnip, Trustee

Anne Cooper, Trustee

Alane White, Trustee
