**RATE MAP-P – MODERNIZATION ACTION PLAN - PRICING**

---

**DS-4 Large General Delivery Service Model**

The large general delivery service class is deemed to be non-weather sensitive as there is no significant relationship between weather and electric usage. Therefore, there is no regression model developed for weather normalization and its billing determinants are not weather normalized.

**DS-5 Lighting Service Model**

The lighting service delivery service class is deemed to be non-weather sensitive as there is no relationship between weather and electric usage. Therefore, there is no regression model developed for weather normalization and the lighting sector billing determinants are not weather-normalized.

\* **DS-6 Temperature Sensitive Delivery Service Model**

The temperature sensitive service class encourages shifting of use away from warm temperature days. Therefore, there is no regression model developed for weather normalization and its billing determinants are not weather normalized.

**DETERMINATION OF DELIVERY SERVICE CHARGES**

The Net Revenue Requirement determined in accordance with the provisions of the Determination of Revenue Requirement section of this tariff, modified as applicable in accordance with Orders issued by the ICC as described in the Annual Updates section or Tariff Changes section of this tariff is used to determine delivery service charges applicable to retail Customers. The Commission authorized spreadsheet used to determine delivery service charges applicable to Customers shall accompany the delivery service charges informational filing.

- \* There are three major steps associated with the determination of delivery service charges. First, the Embedded Cost of Service for each Rate Zone is developed. Second, a revenue allocation process consistent with the approved methodology used in the most recent rate redesign proceeding pursuant to Section 16-108.5(e) of the Act determines the revenue responsibility for each Delivery Service Rate class within each Rate Zone. Third, individual charge components for each Delivery Service Rate and the EDT Cost Recovery for the Tax Additions tariff are adjusted following the methodology approved in the most recent rate redesign proceeding pursuant to Section 16-108.5(e) of the Act.

**APPLICATION OF DELIVERY SERVICE CHARGES**

Delivery service charges are determined for each delivery service rate in accordance with the Determination of Delivery Service Charges section of this tariff. Generally, delivery service charges are determined for application beginning with a January monthly Billing Period and extending through the following December monthly Billing Period. However, the initial delivery service charges determined in accordance with the provisions of this tariff are determined for application for electric service provided beginning October 19, 2012, and extending through the December 2012 monthly Billing Period.

**RATE DS-6 – TEMPERATURE SENSITIVE DELIVERY SERVICE**  
**(Optional Delivery Service for Rate DS-3 and DS-4 Customers)**

---

**AVAILABILITY**

Service under this Rate is available at Customer's request to any Non-Residential Customer who would otherwise be served under either Rate DS-3 or DS-4 and has been a Customer for at least twelve monthly Billing Periods. Customer agrees to hold Company harmless for any consequences arising from the seasonal provisions of this Rate. Service under this Rate will not be available to Customer's until the January 2015 Billing Period.

**PURPOSE**

The purpose of this tariff is to provide an optional delivery service to existing Rate DS-3 and DS-4 Customers who can modify their electrical operations in a meaningful way that provides system benefits for Company.

**MONTHLY CHARGES**

**Customer Charge:**

Applicable to each electric service account where Customer takes service under this Rate at the Meter Voltage as shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff.

**Meter Charge:**

Applicable to each electric service account where Customer elects to receive Metering Services from the Company at the Meter Voltage as shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff.

**Distribution Delivery Charge:**

Distribution Delivery Charge for distribution service supplied at the Supply Voltage shall be charged on a per kW of Delivery Allowance basis each month for all kW of Delivery Allowance, regardless of actual Demand recorded during the Billing Period. The Distribution Delivery Charge will be charged each Billing Period as shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff.

**RATE DS-6 – TEMPERATURE SENSITIVE DELIVERY SERVICE**  
**(Optional Delivery Service for Rate DS-3 and DS-4 Customers)**

---

**Excess Demand Charge:**

Excess Demand Charge for distribution service supplied at the Supply Voltage shall be charged each month, if applicable, and shall be the greater of:

- 1) Tier 1 Excess Demand Charge as shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff multiplied by each kW of Tier 1 Excess Demand; or
- 2) Tier 2 Excess Demand Charge as shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff multiplied by each kW of Tier 2 Excess Demand.

**Transformation Charge:**

If Company owns and operates transformers to transform the voltage from Company's available Supply Voltage to the Delivery Voltage required by Customer, Customer shall be billed the charge shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff on a per kW basis. The charge will be based on the highest Demand in the most recent 12 monthly Billing Periods including the current Billing Period.

A Rate Zone I Customer owning their own transformation with Delivery Service measured at the high voltage side of Customer-owned transformation as of October 1, 2008 will be assessed a Customer Charge and a Meter Charge, if applicable, based upon the low voltage side of the Customer-owned transformation and the Meter Reassignment Charge shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff, on a monthly basis.

**Power and Energy Charges:**

Customer has the option to purchase power and energy from the Company or a Retail Electric Supplier (RES). If Customer elects to take power and energy from the Company, electric power and energy shall be furnished under Rider HSS.

**RATE DS-6 – TEMPERATURE SENSITIVE DELIVERY SERVICE**  
**(Optional Delivery Service for Rate DS-3 and DS-4 Customers)**

---

**Transmission Charges:**

1. For Customer taking power and energy service from the Company:  
Customer will be responsible for all applicable charges in Rider TS, Transmission Service.
2. For Customer taking power and energy service from a RES:  
RES will be responsible for all applicable charges for Transmission Services for its power and energy Customers pursuant to the Transmission Provider's FERC-approved tariffs related to Transmission Service.

**MINIMUM BILL**

The Customer Charge, Meter Charge (if applicable), Distribution Delivery Charge, Excess Demand Charge, and Transformation Charge (if applicable) each month plus all other applicable fees and charges under this Schedule.

**TERMS OF PAYMENT**

Customer's bills for service under this Rate shall be rendered and payments due in accordance with the Billing and Payment Section of the Customer Terms and Conditions.

**DEFINITIONS**

**Average Temperature**

Average Temperature means the average of the high and low temperatures for the next calendar day forecast by an independent weather service used by Company, for Peoria, Decatur, Belleville or Marion for Customers located in the Northern, Central, South Central, or Southern regions, respectively, of the Company's service area. Company will make Average Temperatures available to Customers.

**RATE DS-6 – TEMPERATURE SENSITIVE DELIVERY SERVICE**  
**(Optional Delivery Service for Rate DS-3 and DS-4 Customers)**

---

**Delivery Allowance**

Delivery Allowance means an amount of Demand in kilowatts that the individual Customer is allowed to impose on the distribution system during On-Peak hours on days when Average Temperature is equal to or above 70 degrees Fahrenheit without Customer incurring Tier 1 or Tier 2 Excess Demand Charges. Customer's Delivery Allowance will be determined annually based on the average of the highest monthly Demands experienced by the Customer during the February and March Billing Periods prior to the next June Billing Period. The Delivery Allowance amount will remain unchanged for 12 monthly Billing Periods from June through the following May, and shall be reset for each subsequent June through May Billing Periods. In no circumstance shall the Delivery Allowance for an individual Customer be greater than 25% of the Customer's highest monthly Demand experienced in the past 12 months.

**Tier 1 Demand**

Tier 1 Demand means Customer's maximum Demand in kilowatts during On-Peak hours of any day during the current Billing Period when Average Temperature is equal to or greater than 70 degrees Fahrenheit but less than 78 degrees Fahrenheit.

**Tier 2 Demand**

Tier 2 Demand means Customer's maximum Demand in kilowatts during On-Peak hours of any day during the current Billing Period when Average Temperature is equal to or greater than 78 degrees Fahrenheit.

**Tier 1 Excess Demand**

Tier 1 Excess Demand means Customer's Tier 1 Demand less Customer's Delivery Allowance, if any. In no circumstance shall the Tier 1 Excess Demand be less than zero.

**Tier 2 Excess Demand**

Tier 2 Excess Demand means Customer's Tier 2 Demand less Customer's Delivery Allowance, if any. In no circumstance shall the Tier 2 Excess Demand be less than zero.

**RATE DS-6 – TEMPERATURE SENSITIVE DELIVERY SERVICE**  
**(Optional Delivery Service for Rate DS-3 and DS-4 Customers)**

---

**TERMS AND CONDITIONS**

**Prerequisites of Service**

Customer must request service under this tariff by May 1 for service to begin the following June Billing Period. Customer taking service under this tariff will be automatically enrolled from one year to the next unless customer notifies Company by May 1 prior to the next June Billing Period.

**Service Obligation**

A Customer must take service under this Rate for a minimum of 12 consecutive Billing Periods beginning with the June Billing Period. Customer will remain on this Rate until Customer requests to be removed from the Rate or customer no longer qualifies for service under Rate DS-3 or DS-4. If Customer requests to be removed from this Rate, Customer will be reassigned to the appropriate Rate class effective with the next June Billing Period.

**General**

The amount of base rate delivery service uncollectible expense recovered on a per Customer basis each month pursuant to ICC Orders addressing delivery service rates as shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff.

Service hereunder is subject to the Customer Terms and Conditions, Standards and Qualifications for Electric Service, Tax Additions, and Supplemental Customer Charge Tariffs of this Schedule, as well as any other applicable Rates, Riders, taxes, adjustments, fees or charges that may be approved by the ICC from time to time and in effect. Unless otherwise specified, such other applicable tariffs will be applied based on the provisions that would have applied to Customer if taking service under the otherwise applicable standard service, Rate DS-3 or DS-4.

A Customer that is no longer eligible for service under either Rate DS-3 or DS-4 shall be removed from service under this optional Rate effective with the June Billing Period.
