

**Ameren Illinois Company**  
d/b/a Ameren Illinois  
Electric Service Schedule Ill. C. C. No. 1

---

**RATE MAP-P – MODERNIZATION ACTION PLAN - PRICING**

---

**DS-4 Large General Delivery Service Model**

The large general delivery service class is deemed to be non-weather sensitive as there is no significant relationship between weather and electric usage. Therefore, there is no regression model developed for weather normalization and its billing determinants are not weather normalized.

**DS-5 Lighting Service Model**

The lighting service delivery service class is deemed to be non-weather sensitive as there is no relationship between weather and electric usage. Therefore, there is no regression model developed for weather normalization and the lighting sector billing determinants are not weather-normalized.

**DS-6 Temperature Sensitive Delivery Service Model**

The temperature sensitive service class encourages shifting of use away from warm temperature days. Therefore, there is no regression model developed for weather normalization and its billing determinants are not weather normalized.

**DETERMINATION OF DELIVERY SERVICE CHARGES**

The Net Revenue Requirement determined in accordance with the provisions of the Determination of Revenue Requirement section of this tariff, modified as applicable in accordance with Orders issued by the ICC as described in the Annual Updates section or Tariff Changes section of this tariff is used to determine delivery service charges applicable to retail Customers. The Commission authorized spreadsheet used to determine delivery service charges applicable to Customers shall accompany the delivery service charges informational filing.

There are three major steps associated with the determination of delivery service charges. First, the Embedded Cost of Service for each Rate Zone is developed. Second, a revenue allocation process in the most recent rate redesign proceeding pursuant to Section 16-108.5(e) of the Act in Docket Nos. 09-0306 (cons.) d each Delivery Service Rate class within each Rate Zone. Third, individual charge components for each Delivery Service Rate and the EDT Cost Recovery for the Tax Additions tariff are adjusted following in the most recent rate redesign proceeding pursuant to Section 16-108.5(e) of the Act in Docket Nos. 09-0306 (cons.)

**APPLICATION OF DELIVERY SERVICE CHARGES**

Delivery service charges are determined for each delivery service rate in accordance with the Determination of Delivery Service Charges section of this tariff. Generally, delivery service charges are determined for application beginning with a January monthly Billing Period and extending through the following December monthly Billing Period. However, the initial delivery service charges determined in accordance with the provisions of this tariff are determined for application for electric service provided beginning October 19, 2012, and extending through the December 2012 monthly Billing Period.
