### What We Do

Progressive Energy Consultants (PEC) is a professional energy brokerage; we specialize in providing solutions to large high usage consumers, by providing custom tailored energy rates to fit their needs.

### The Industry

The executives and staff of Progressive Energy Consultants have a combined 45 years in the energy industry. This includes customer acquisition and customer service for millions of consumers in literally every Choice program across America.

### The Successful Process

At Progressive Energy Consultants we invest a lot of time and consideration into making sure the customer is getting exactly what they want, be it a fixed or variable rate. We always think of the customer first and negotiate on their behalf to provide the best-tailored energy rates the market has to offer. Progressive Energy Consultants has never had a complaint, a statistic the entire company is very proud of.

### Operations

Progressive Energy Consultants started operations on 1/1/2013 and presently has 9 brokers operating in the different deregulated states. Under a different name, we manage a book of business consisting of 866 customers under electric contracts, annually using a combined 336,081,290 kWh and a book of business consisting of 200 customers under natural gas contracts, annually using a combined 490,000 Mcf.
