Expiration Date  
September, 14

2014

**PVI-L1**

Photovoltaic Installer

# *Certified Photovoltaic Installer*

**Norman K. Johnson , PVI-L1115876**

**Somonauk, Illinois**

*has successfully completed the technical examinations and requirements to be universally recognized for competency, ability and knowledge as a Photovoltaic Installer (Level 1). To be certified, practicing installers must pass both written and hands-on examinations that test the skills and knowledge of photovoltaic procedures and technology. The Electronics Technicians Association, International takes great pride in presenting this official recognition to the above-named installer. His/her name has been published in the High-Tech News journal, embedded in the ETA permanent data base, and is available for recognition by officials of the industry. This individual may display the PVI-L1 identification items or advertise his/her level of accomplishment as a technician. Congratulations from ETA International officers and members, and the electronics industry. Recertification takes place every four (4) years and may be accomplished by acquiring college, tech school, association or manufacturer training session credits, or by testing in the same electronics technology discipline at the end of each four-year period.*

*Guesa J. Maler*  
President, Electronics Technicians Assn., Int'l.
