To whom it may concern,

It started when People's Gas visited my home unannounced with no appointment or phone call on 12/16/12. Knocked on my door my wife answered and they told her that they were there for a leak inspection, my wife let them in and the next thing she notices was that they took the gas meter and turn off all the gas for all the building. After several attempts to get a hold of them finally got a hold of someone all they would tell me is that they were doing an investigation finally after a month with no gas they told me that i was stealing gas and that i had to pay for all the illegal used gas and reroute my gas pipes to install the meters outside before they could reinstall the gas they charged me \$10.000 dollars for something that was not true I never did anything illegal in my property I've been a loyal customer paying my gas bill every month for several years.
