The reader will be there at 8am and will call you when in route. Please answer so that he can obtain a reading. Are you requesting that ComEd install a remotely read meter? If so, we can explore that possibility. If not, we will add your question to the 70+ other data requests and respond accordingly.

This is to confirm receipt of the below mentioned email. When the hour becomes more permissible contact will be made with the contact person to affirm their availability for 8:00 am, as this is very short notice at that time the pertinent information will be provided.

Moreover, when the liberty was taken to exchange the meters, why were not "arm" meters installed, to ensure that the meters were not in a state of disrepair to avoid the potential of missed reads, especially during the period of the exchange of the meters, which you have been privileged to prior to the exchange of the meters.

Received your email a little bit ago and perhaps the below mentioned caption is why there was not a reply to my response of 10.15.13.

The times that were given were as follows: 8:00 am or 3:00

Realizing the lateness of the hour upon receipt of a confirmed time, coordination with the contact person will be made in an order to facilitate the read.
