Please make sure there is nothing in front of , around, or near the meters that would otherwise block and/or impede the tech in gaining access to the meter. The ALJ sets the hearing day and time, as such she is the only one that can change the time. Thank you, Erin

The meter reading is scheduled to take place tomorrow between 8am and 2pm. I need to know a time before noon today so that we can schedule it with our planners, as this will be a special accommodating since we are unable to get regular access. Please advise before noon today. -----Original Message-----

The reader was there at 8am. Tried both of your phone numbers, one is disconnected, one has the mailbox full. We can get the reader back out there, please advise ASAP. Please give us a working number where the reader may contact someone, please. Thanks,
