

ILLINOIS  
COMMERCE COMMISSION

FEB 3 2014

February 1, 2014

Doug Scott,

Office of Chairman  
And Commissioners

This letter is in reference to case number 12-0598 with specific reference to the Meredosla to Pawnee segment.

My name is Wendy Meyer. My husband, Scott Meyer, and I live at 894 Dodsworth Rd in Franklin. I am writing this letter in concern of this proposed line. It is my understanding that this line will run directly thru our property approximately 50 feet from our home. We had been previously informed that there exists a much shorter route using an existing corridor between Meredosla and Pawnee. This shorter route has been in existence for many years and would cost millions less to construct. This existing route is the route that the Commission staff has recommended throughout the case. We have also been told that all landowners along this existing route have been notified and not a single one has voiced any objection to the new line being placed along the shorter existing line. In fact the only exception is Ameren who would "prefer" not to have the lines run parallel.

My husband and I have lived on this property for nearly 26 years. Over the years we have made many improvements to both our home and to the surrounding property. The thought of this line running directly thru what we own and have worked hard to make beautiful is very upsetting. Would you want this to be done to you? I also have great concern as to any adverse health problems that this line could cause to my husband and I as well as to our children and grandchildren. We have satellite TV and internet as well as cell phones, all of which have great reception and work perfectly. Can it be guaranteed that this line will not interfere with any of these utilities?

In closing, I respectfully request that you take a strong look at this case as to the Meredosla to Pawnee segment and approve the existing line as recommended by the Commission staff.

Respectfully yours,

Meyer
