

ILLINOIS
COMMERCE COMMISSION

FEB 10 2014

Office of Chairman
And Commissioners

I.C.C. Chairman Doug Scott:

The letter is about the case number: 12-0598 and the Meredosia to Pawnee segment.

I live on the farm which is in this segment. According to what I have learned the residence will be one-half mile from your line and 3 parcels of land for a total of two miles.

There is a shorter route, an existing power line corridor between Meredosia and Pawnee. It has been in existence for a long time. It's 18.3 miles shorter and effects 50 less homes and 87 less landowners. It should save 36.78 million to add the new line along this existing corridor. Because it is so much shorter and vehicle access is already in place. The existing route is the route the commission staff has been recommending throughout this case!

I hope that the commissioners take a strong look at this case because Meredosia to Pawnee Segment and approve the line as recommended by the Commission Staff.
