Travelers Casualty and Surety Company of America  
215 Shuman Blvd.  
Naperville, IL 60563

BOND NO. 106069641

KNOW ALL MEN BY THESE PRESENTS:

THAT WE, Century Energy Solutions, LLC, as principal, and Travelers Casualty and Surety Company of America, an Illinois Corporation, and authorized to do business in Illinois, as surety, are held and firmly bound unto the People of the State of Illinois as Obligee, in the sum of FIVE THOUSAND AND 00/100 - - - - - (\$5,000.00), for which sum, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, by these presents.

THE CONDITIONS OF THE ABOVE OBLIGATION IS SUCH, That whereas, the Principal has been or is about to be granted a license or permit to do business to operate as an ARES (Alternative Retail Electric Supplier) under 220 ILCS 5/16-115 and is required to execute this bond under 83 Illinois Administrative Code Part 451.50 by the Obligee.

NOW, Therefore, if the Principal fully and faithfully perform all duties and obligations of the Principal as an ARES, then this obligation to be void; otherwise to remain in full force and effect.

This bond may be terminated as to future acts of the Principal upon thirty (30) days written notice by the Surety; said notice to be sent to 527 E. Capitol Ave., Springfield, IL 63701, of the aforesaid State of Illinois, by certified mail.

Dated this 7<sup>th</sup> day of March, 2014

STATE OF ILLINOIS  
ILLINOIS COMMERCE COMMISSION

Application for Licensure of Agents, Brokers and Consultants for Century Energy Solutions, LLC.

**ATTACHMENT A:**

Century Energy Solutions, LLC will be offering electricity procurement services for large to small commercial customers in Illinois behind the utilities, ComEd and Ameren, service territories. The company will work directly with the businesses to procure energy supply, manage costs, audit rates and billing, comply with renewable requirements, and manage risks. The four managing principals will market the services directly. No other solicitation or sub brokering is anticipated at this time. In more detail, our service will include:

**[1] Energy Procurement – Electricity and Natural Gas**

Between our four partners, Century Energy Solutions brings more than a 100 years' worth of experience in the energy industry to the buyer's side of the table, working on their client's behalf to arrive at the best combination of price and risk from the client's perspective. We can assist in the procurement and management of both electricity and natural gas supply needs.

**[2] Market Knowledge and Expertise.**

Utility tariffs change all the time - rules, regulations, rates for service. And energy prices are continually changing and are subject to periods of high volatility. We will keep our customers informed as to current market conditions and tariff changes as we are made aware of them.

**[3] Understanding your energy bill and the various cost components.**

We will review energy invoices on request and confirm customers are being invoiced in accordance with their contract. We will also help customers understand the various cost components that may appear on their invoices

**[4] Budgeting and cost projections.**

We can assist customers in projecting their future energy costs. And we can include 'what-if' scenarios for pricing and/or usage volatility.

**Managerial and Technical Licensing Qualification Requirements:**

For these requirements, please see the Biographies for Mike Hyman, Steve Snelson, Brad Cesario and Ken Watson.

Organization Chart:

**MIKE HYMAN (Managing Principal)**

Michael Hyman's experience spans more than 20 years in the energy industry. His expertise in delivering energy to a diverse SIC base encompassing many industries, including paper, plastics, printing, governmental, financial, transportation, and telecom not only earned him the Presidential Territorial Development Award in 1995, but was recognized for facilitating innovative partnerships between public and private entities.

Mike started out selling energy management systems for a performance contractor in Chicagoland, and landed the largest contract in company history. He then moved to Commonwealth Edison (the local energy distribution company) as an Associate Account Manager where he was promoted to Account manager in 16 months. Within two years he was handling the largest portfolio of all 120 ComEd Account Managers, acting as an internal advocate and single point of contact for some of ComEd's largest customers. During this time, ComEd became part of Exelon Corporation.

Mike spent the next 12 years working for the Retail side of Exelon Corporation negotiating Electricity, Natural Gas, Demand Response and Renewable Energy contracts. Mike's passion for the energy industry and drive to maintain exemplary customer relationships has been the hallmark throughout his career. Now, in collaboration with his three partners, they bring more than a century's worth of experience on the supplier side to the buyer's side of the table, working on their client's behalf to arrive at the best combination of price and risk from the client's perspective.

**Education:** Elmhurst College; BS, Business Administration; 1986 – 1988

**STEVE SNELSON (Managing Principal)**

Steve Snelson's experience in the energy field spans over 22 years, beginning as a Regional Account Manager with Commonwealth Edison. While in his role at ComEd, Steve routinely sought and found ways to go "beyond the meter" for his customers and was instrumental in the implementation of the largest (at the time) non-traditional energy solution for one of his customers.

While at ComEd, Steve's customers consisted of many of ComEd's largest industrial power consumers. Through that experience, Steve sharpened his knowledge and expertise in the areas of power delivery and reliability, Demand Response, on-site generation, etc. Steve's ability to assist a wide range of customer's through the myriad of energy related issues and opportunities led to his transition to the unregulated retail energy company at Exelon, Exelon Energy.

Steve has spent the last 15 years with Exelon in the Retail Energy space. In this role, he has negotiated contracts for Electric Power, Natural Gas, Demand Response and Renewables, for one of the largest suppliers in North America. Steve's desire to bring his experience to customers looking for the best energy solution for their business, has lead him to partner with three like-minded individuals in the form of Century Energy Solutions.

**Education:** Eastern Illinois University; B.S., Marketing; 1980 – 1984

**BRAD CESARIO (Managing Principal)**

Brad has over 24 years' experience in the Retail Energy industry, working directly with retail energy customers. Brad provides customers with integrated energy solutions to help manage their energy needs for both electricity and natural gas. This includes not only Retail Commodity Procurement, but also Budget Forecasting, Demand Response, Energy Efficiency, and Renewable Energy.

Brad began his career in the deregulated energy industry as an Operations Analyst with Wisconsin-based retail natural gas supplier Kaztex Energy Management. This position availed Brad to all aspects of the retail energy industry including sales, supply-side management, customer care, and utility tariff and rate case intervention. In 1994, Brad became the first employee of a new Illinois-based retail energy business venture between Kaztex and Wisconsin Energy Corp called Blackhawk Energy Services. Brad was involved in all aspects of Blackhawks development including marketing/sales, product design, utility tariff analysis, semi-annual energy conferences, and periodic newsletters.

In 1999 Brad took a position as an Account Executive with the retail affiliate of Exelon Corporation. Brad built a customer base that reached over 300 Megawatts of peak demand and over 4 bcf of annual natural gas consumption. Brad's expertise truly extends into both the retail natural gas and electricity markets. Now, through Century Energy Solutions, Brad is able to apply all of his experience to the direct benefit of his customers in implementing the best energy solution for their business.

**Education:** Univ of Wisc-Oshkosh: BA, Business Admin; 1977 – 1981  
Arizona State Univ.: MBA, Finance: 1988 – 1990

**KEN WATSON (Managing Principal)**

Ken has energy industry experience totaling over 30 years starting at LaSalle County nuclear power station in Marseilles, IL working in operations, chemistry and radiation protection departments. Realizing that the real business world was outside of the nuclear concrete building, he became a Regional Account Manager with Commonwealth Edison. While an Account manager, he learned the utility electric business. This experience gave Ken the utility knowledge that he desired to assist all SIC codes of Commercial and Industrial customers.

Ken then spent ten years refining his knowledge of electric markets and their prices by becoming one of Commonwealth Edison's first Energy Traders. Then with that expertise, he was promoted to the Wholesale Marketing Group where he specialized in on peak and off peak markets, PPA's and other market related products.

Ken has spent the last eight years in the retail space focusing on electricity products, natural gas, demand side management, budget forecasting and renewables. While working at Exelon's retail company, Ken has seen what costs Customer's needlessly pay because of poor market knowledge and poor contract execution. Ken joins his experienced partners at Century Energy Solutions and will bring his knowledge to your company and will make a positive effect to your bottom line.

**Education:**    Lewis University;                      BA, Business Admin;                      1975 – 1992
