SCHEDULE OF RATES AND CHARGES (WATER)

ILLINOIS COMMERCE COMMISSION CHIEF CLERK'S OFFICE

* The balance of Unrecovered or Overrecovered Supply Charge Costs factor shall apply in all service areas when (i) the supplier and/or wheeler of Lake Michigan water makes effective a new price prior to the time the Company's recomputed purchased water charge reflecting such change(s) becomes effective, and/or (ii) there are discrepancies affecting the measurement of Lake Michigan water supplied and/or billing adjustments related to such discrepancies.

* The balance of Unrecovered or Overrecovered Supply Charge costs factor shall apply for all recomputations of the Purchased Water Charge in the Chicago Suburban and DuPage County service areas.

The Lake Michigan water supply charge shall be subject to periodic revision to adjust for changes in the Unit Cost(s) to Company as determined in the above formula, provided that Company's rate change is equal to at least one cent (\$.01) per 1,000 gallons for the period used in calculation of the Lake Michigan water supply charge amount.

The Company shall maintain, in accordance with generally accepted accounting principles, a continuing monthly comparison of the actual cost of Lake Michigan water as shown on the books and records of the Company and the cost recovery for the same month. The Company will forward an annual report of this lake water accounting to the Commission by the end of January of each succeeding year. In addition, a copy of the report shall be included in any filing with the Commission to recompute the Purchased Water Charge. The report will be updated through the end of the most recent month available prior to the date of the filing.

20.02 Upon any purchased water increase or decrease, the construction water supply charges shall be recalculated as follows:

Construction of

Construction Lake Michigan Water Supply Charges

Individual Residential or Commercial Unit per Unit

7,000 gals x recomputed supply charge

Multiple Residential or Commercial Unit per Unit

5,000 gals x recomputed supply charge
