Proprietary Treatment

Charter is a limited liability company duly authorized to do business in the State of Illinois and is certified as a competitive telecommunications carrier. All of our services that are regulated by the Illinois Commerce Commission are competitive.

Charter is seeking to protect its financial information as it is not publicly available and is treated as confidential by Charter, a privately held limited liability company. All of the information contained in the 2013 Annual Report is financial in nature that should be afforded protective treatment and not made part of the public record.

The information contained in Charter's 2013 Annual Report, if made public, would enable any competitor to read the report and obtain highly proprietary and confidential commercial and financial information. The disclosure of this information to competitors would enable competitors to use this proprietary and confidential information about Charter to its advantage, especially given the highly competitive nature of the telecommunications industry.
