**VERIFIED STATEMENT OF A. OLUSANJO OMONIYI**

My name is A. Olusanjo Omoniyi and I am employed by the Illinois Commerce Commission as a Policy Analyst in the Policy Division. I graduated from Southern Illinois University at Carbondale with a Bachelor of Arts degree in Cinema & Photography and Bachelor of Science degree in Radio-Television in 1987. In 1990, I obtained a Master of Arts degree in Telecommunications and a Juris Doctor in 1994 also from Southern Illinois University at Carbondale. Among my duties as a Policy Analyst is to review Applications for Certification filed by Distributed Generation Installers and provide recommendation as to their approval.

**SYNOPSIS OF THE APPLICATION**

The instant Application for Certification as a Distributed Generation Installer (the “Application”) was filed by ROBERT CARLSON (“ROBERT CARLSON or Applicant”) on February 24, 2014. In the Application, ROBERT CARLSON is seeking certification as a qualified person to install distributed generation facilities pursuant to Section 16-128A of the Public Utilities Act (“Act”) and 83 Ill. Adm. Code 468 (“Section 468”). The purpose of my verified statement is to examine the Application based on the standards enunciated in Sections

468.50, 468.60, 468-80 and 468.110 of 83 Ill. Adm. Code 468 (“Section 468”) and Section 16-128A of the Act.

**I. APPROVAL UNDER SECTION 468**

**A. REQUIRED APPLICATION INFORMATION (Section 468.50)**

In accordance with 83 Ill. Adm. Code 468.50 (“Section 468.50”), the Applicant provided required information such as: the Applicant’s name (including d/b/a), street address, telephone number, facsimile number, website and e-mail addresses; contact information and other pertinent information for the persons or entities responsible for issues related to processing of the Application and the Applicant’s applicable federal employer identification number (FEIN) or taxpayer identification number (TIN). The Applicant also states he will comply with informational and reporting requirements established in Section 468.50. Further, the Applicant agrees to accept service by electronic means as provided in the Commission’s Rules of Practice, 83 Ill. Adm. Code 200.1050. Attached to the Application is an exhibit marked as Exhibit A containing information for each qualified person who will perform or directly supervise installations to satisfy the requirements of Section 468.50 which includes:

- a) A copy of the certification of satisfactory completion of the relevant training programs; and/or
- b) An Affidavit by each qualifying person attesting to having satisfactorily completed at least five (5) installations of distributed generation facilities that includes the type of each distributed generation facility (wind turbine, fuel cell, natural gas generator, etc.)

**B. CERTIFICATION REQUIREMENTS (Section 468.60)**

The second issue that needs to be addressed by the Commission in approving or rejecting an application for certification of DG installers is to ensure that an Applicant certifies that it will meet the five (5) requirements in Section 468.60 which in pertinent part states that:

- a) It will remain in compliance with all applicable laws and regulations and Commission rules and orders, including, but not limited to, the requirements of Sections 16-128(a) and 16-128A of the Act and Section 468.
- b) It will ensure that its employees, agents or contractors, or the employees, agents or contractors of any entity, agent or contractor with which it has contracted to perform those functions within the State of Illinois, shall:
  - 1) Comply with applicable building and electrical codes, including those contained in the NEC;
  - 2) Comply with the distributed generation facility manufacturer's installation instructions;
  - 3) Install only distributed generation facilities that meet recognized industry standards; and
  - 4) Ensure that all obligations required under this Section and Sections 16-128(a) and 16-128A of the Act are met prior to placing into, or returning into, use any distributed generation facility that the certificate holder installed.
- c) It will comply with applicable licensing and municipal bonding requirements to do business in the State of Illinois.
- d) Every installation of a distributed generation facility will be performed only by:
  - 1) A qualified person; or;
  - 2) An electrical contractor who is not a qualified person, provided he/she is directly supervised by a qualified person; or;
  - 3) a person who is not a qualified person but is enrolled in a training program that, upon satisfactory completion, will meet the requirement to become a qualified person, provided he/she is directly supervised by a qualified person.
- e) It is licensed to do business in the State of Illinois.

ROBERT CARLSON's Application was reviewed in accordance with all the five criteria in Section 468.60.

ROBERT CARLSON affirms he will remain in compliance with all applicable laws and regulations and Commission rules and orders, including but not limited to, the requirements of Sections 16-128(a) and 16-128A of the Act and Section 468. In particular, ROBERT CARLSON certifies that: he will ensure that he complies with applicable building and electrical codes and the DG facility manufacturer's installation instructions; he will install only DG facilities that meet recognized industry standards and will ensure all obligations under Section 468.60 and Sections 16-128(a) and 16-128A are met before placing into or returning into use any DG facility that he installed. Further, ROBERT CARLSON states that he will comply with applicable licensing and municipal bonding requirements to do business in the State of Illinois.

Moreover, ROBERT CARLSON certifies that every installation of a DG facility will be performed by: a qualified person; or in the event an electrical contractor who is not a qualified person is used, the contractor will be directly supervised by a qualified person; or if a person who is not a qualified person but is enrolled in a training program that, upon satisfactory completion, will meet the requirement to become a qualified person, provided he/she is directly supervised by a qualified person. Finally, ROBERT CARLSON affirms that he is licensed to do business in Illinois.

1. **The Installations and Certificates of Training**

ROBERT CARLSON filed two Certificates; one for the completion of Gried-tied Photovoltaic Design & Installation course and Advanced PV: Design Criteria & NEC Code Compliance and each workshop was approved for 40 hours for the North American Board of Certified Energy Practitioners (NABCEP) training hours. Also, ROBERT CARLSON showed that he had satisfactorily completed six installations of distributed generation solar photovoltaic facilities. Based on the information provided, ROBERT CARLSON is a qualified person for

photovoltaic DG installations including electrical wirings and connections to interconnect the facilities with the electric utilities' distribution systems.

## **2. Recommendations**

In order for any person to be a qualified person for DG installation on behalf of the certificate holder under Section 468.50(f)(1) and (2), each qualifying person must either have completed relevant training programs and/or must file an affidavit showing the person has satisfactorily completed at least five installations of DG facilities such as wind turbine, fuel cell, natural gas generator, etc. The information provided in this Application by ROBERT CARLSON indicates that he is qualified as he had completed six installations of distributed generation solar photovoltaic facilities working. He also attended training on Grid-tied Photovoltaic Design and Installation and Advanced PV: Design Criteria & NEC Code Compliance workshops in 2007. Each workshop was approved for 40 hours for the North American Board of Certified Energy Practitioners (NABCEP) training hours. These sets of information showed that ROBERT CARLSON is a qualified person under Section 468.60(f)(2) to install photovoltaic DG installations.

### **C. RECERTIFICATION REQUIREMENTS (Section 468.80)**

In accordance with Section 468.80, each certificate holder shall recertify annually to remain in good standing with the Commission. The recertification involves submission of a recertification report that includes the information required in Section 468.80(c), in particular, the certificate holder must continue to maintain the required qualifications for the service authority in its certificate. In this case, ROBERT CARLSON agrees to submit recertification reports in accordance with annual recertification requirements in Section 468.80.

**D. MAINTENANCE OF RECORDS (Section 468.110)**

In accordance with Section 468.110, the Applicant shall agree to adopt and follow procedures ensuring that documentation regarding the installation of DG facilities are retained for a period of not less than three calendar years after the calendar year in which they were created. Further, these records are required to be made available, upon request, to the Commission or its Staff on a confidential and proprietary basis. In this case, ROBERT CARLSON agrees to that it will comply with the requirements of Section 468.110.

**E. CONSUMER COMPLAINTS**

Commission Staff asked the Applicant to list each state other than Illinois in which it is certified or licensed to install DG facilities. The Applicant states he is not certified or licensed in any other states. Further, Applicant was asked to declare the number of consumer complaints he has received related to the Applicant's installation of DG facilities in each state, including Illinois, for all years between and including 2009 and 2013. The Applicant stated that he has not received any consumer complaints.

**II. CONCLUSION**

In the light of the foregoing facts and review, the Commission should grant at ROBERT CARLSONs Application for certification as a Distributed Generation installer. The Commission should also order ROBERT CARLSON to comply with Recertification Requirements in compliance with Section 468.80. Finally, the Commission should order ROBERT CARLSON to maintain all the records of the installation of DG facilities for a period of not less than three calendar years after the calendar year in which those records were created.
