How do I compare the offers listed below?

This listing of currently available residential offers is provided and maintained by Retail Electric Suppliers (RESs). The listing allows you to compare RES offers against each other as well as against the utility Price to Compare. While the ICC does not warrant that the list below is a complete list of all residential offers in Illinois, participating RESs are required to honor prices listed here as a condition of posting their offers on this site. The ICC does not endorse or recommend any particular RES. You may be able to save money by switching your electric supplier. If you are comparing offers strictly on price, there might not always be a simple way of calculating in advance which option will have the "best price", especially when considering longer periods of time. The utility Price to Compare depends solely on your electricity usage. On the other hand, some offers of Retail Electric Suppliers might include a monthly recurring charge that is independent of your electricity usage. Any such monthly fixed costs are included in the "Current Monthly Cost" columns. **Keep in mind that the dollar amounts below do not include the utility's delivery service charges. Those delivery service charges are the same regardless of your choice of electric supplier and they will be part of your total monthly bill.** We encourage customers to read Understanding the Utility's Electric Supply Price, which explains in more detail the various charges that make up the utility's fixed price.

The utility rate structure applicable to residences that were served under a space heat or all-electric rate prior to 2007 is discounted and retail electric suppliers are often unable to offer a price lower than the utility rate. **To learn more, see the Space Heat Information page.**

The offers below are initially sorted in a random order. You can sort the offers by price, supplier name, term length, etc. by clicking on the desired column heading. If you see a particular offer that interests you, click on the name of the offer to see more detailed information and contract terms regarding the service. Be sure you understand all the terms and conditions of service before you sign up. Clicking on the supplier's logo or name will take to the supplier's website.

Supplier	Price in cents per kWh	Additional Monthly Fees	Current Monthly Cost			Term (Mo.) Termination Fees	Description
			500 kWh	1000 kWh	1500 kWh		
 1-800-755-5000	Fixed Price 4.657	\$0	\$23.29	\$46.57	\$69.86		This Price to Compare is in effect until the end of September 2014. See Understanding the Utility's Electric Supply Price for a detailed explanation of the various charges that make up the utility's price.
 1-888-884-1760 GreenValueAssurance	Variable Price 7.9900	0	\$39.95	\$79.90	\$119.85	0 0	GreenValueAssurance is a month to month plan with no deposit or disconnect fee. The rate is guaranteed until the end of the year. For more information contact us at 1-888-884-1760 or visit are website.
