such dispute to the other Party. Such notice must explain in reasonable detail the specific circumstances and grounds for each disputed item. If a Party gives notice of a billing dispute more than thirty (30) Days after the billing date and has not paid the disputed amounts by the payment due date, then the notice of such dispute shall be deemed to have been given thirty (30) Days after the billing date for purposes of calculating the time period before such dispute may be submitted to any court, commission or agency of competent jurisdiction for resolution.

received from the terminating office and shall end at the time of call disconnect by the calling or called subscriber, whichever occurs first.

55.6.3 MOUs or fractions thereof, shall not be rounded upward on a per-call basis, but will be accumulated over the billing period. At the end of the billing period, any remaining fraction shall be rounded up to the nearest whole minute to arrive at total billable minutes. MOU shall be collected and measured in minutes, seconds, and tenths of seconds,

55.6.4 Each Party shall calculate terminating Interconnection MOUs based on standard AMA recordings made within each Party's network, these recordings being necessary for each Party to generate bills to the other Party. In the event either Party cannot measure minutes terminating on its network where technically feasible, the other Party shall provide the measuring mechanism or the Parties shall otherwise agree on an alternate arrangement.

55.7 Billing for Access Services will be in conformance with Multiple Exchange Carrier Access Billing (MECAB) guidelines and Multiple Exchange Carriers Ordering and Design Guidelines for Access Services-Industry Support Interface (MECOD). The Parties will exchange Billing Account Reference and Bill Account Cross Reference information and will coordinate initial and subsequent billing cycles. CenturyLink will provide CenturyLink Communications LLC, the appropriate records to bill Exchange Access charges to the IXC. CenturyLink will capture records for inward terminating calls and send them to CenturyLink Communications LLC, as appropriate, via CenturyLink's standard processes. 55.10 The Parties will bill each other in a timely manner. Except for billing pursuant to a Section 16 Dispute Resolution process determination, neither Party will initiate credit claims or bill the other Party for previously unbilled, under-billed or over-billed charges for services under this Agreement that were provided more than twenty-four (24) months prior to the applicable most recent bill date, unless a longer period is warranted as a result of fraud, concealment or other similar circumstances.

- 55.11 Except as otherwise provided in this Agreement, payment of amounts billed for services provided under this Agreement shall be in immediately available U.S. funds, and shall be due by the Bill Due Date.
- 55.12 If the Bill Due Date is a Saturday, Sunday, or has been designated a bank holiday, payment is due by the next Business Day. Payments may be transmitted by electronic funds transfer.
- 55.13 If any undisputed amount due is not received by the billing Party by the Bill Due Date, the billing Party shall calculate and assess a late payment charge on the past due balance. The billed Party agrees to pay, a late payment charge equal to one and one-half percent (1.5%) per month, or the highest rate of interest that may be charged under Applicable Law, compounded daily, for the number of days from the Bill Date until the date on which such payment is made. Such late payment charges shall be included on the billing Party's next statement to the billed Party.
- 55.14 If any portion of an amount billed by a Party under this Agreement is subject to a good faith dispute between the Parties, the billed Party shall give written notice to the billing Party of the amounts it disputes (Disputed Amounts) and shall include in such notice specific details and reasons for disputing each item. Such written notice shall be submitted in accordance with the process for submitting billing dispute claims set forth on the CenturyLink Website. Disputed billing claims shall be submitted no later than the Bill Due Date. Failure by the billed Party to dispute a billed amount before the Bill Due Date means that the total charges billed are due and payable to the billing Party on the Bill Due Date. The billed Party may not withhold payment of billed amounts past the Bill Due Date pending a later filing of a dispute, but must pay all billed amounts for which it has not provided a written notice of dispute on or prior to the Bill Due Date. If the billed Party disputes charges after the Bill Due Date and has not paid such charges, such charges shall be subject to late payment charges. The withholding of payment for disputed amounts shall not absolve the billed Party of ongoing late payment charges should the dispute be resolved in favor of the billed Party. Both CenturyLink Communications LLC, and CenturyLink agree to expedite the investigation of any Disputed Amounts, promptly provide all documentation regarding the amount disputed that is reasonably requested by the other Party, and work in good faith in an effort to resolve and settle the dispute through informal means prior to escalating the billing dispute pursuant to Section 16.2.3.
- 55.14.1 Payment of billed amounts that are subsequently disputed or which become the subject of a request for adjustment shall not constitute or be deemed to represent a waiver of a Party's right to submit a dispute or seek an adjustment of such Party's account with respect to such paid amounts, and the paying Party shall not be required to designate any such payment as "conditional" or "under protest" in order to submit a dispute or seek a subsequent adjustment with respect to amounts which have previously been paid.
- 55.14.2 If a disputed charge is resolved in favor of the billed Party, the Parties shall cooperate to ensure that the billing Party credit the invoice of the billed Party for that portion of the Disputed Amount resolved in favor of the billed Party, together with any late

payment charges assessed and/or paid with respect thereto within ten (10) business after the resolution of the billing dispute.

- 55.14.3 If a dispute is resolved in favor of the billing Party, the billed Party shall pay the invoice for that portion of the Disputed Amount resolved in favor of the billing Party, together with any late payment charges associated with the non-payment of the validated billing. Payment shall be due no later than the next Bill Due Date after the resolution of the billing dispute.
- 55.14.4 If the Parties cannot resolve the dispute within ninety (90) Days of the written notice of dispute, either Party may give written notice to the other Party exercising the right to escalate the dispute pursuant to Section 16.2.3. For purposes of this Section, non-resolution occurs when neither Party agrees whether the billing is incorrect or correct; i.e., when the billing Party has issued neither a correction nor a denial.
- 55.14.5 If the Parties cannot resolve the dispute within ninety (90) Days of the billed Party providing written notice to the billing Party of such Disputed Amounts, and if the Billed Party does not provide written notice of escalation of the dispute within such timeframe, the billed Party waives its alleged entitlement to and/or right to withhold such Disputed Amount and all withheld amounts, including accumulated late payment charges for the billed amounts, becomes immediately due.
- 55.14.6 Notwithstanding Sections 55.13.4 and 55.13.5, if the billing Party provides written notice to the billed Party that a billing dispute has been denied, stating the grounds for such determination, then the billed Party shall have thirty (30) Days in which to either pay the disputed amounts or to give written notice to the other Party exercising the right to escalate the dispute pursuant to Section 16.2.3. Such notice may be accompanied by any additional, relevant materials submitted by CenturyLink Communications LLC,. If the billed Party fails to give written notice exercising the right to escalate the dispute within the thirty (30) Days of the notice date of the written denial of a dispute, the billed Party waives its alleged entitlement to and/or right to withhold such disputed amounts and all withheld amounts, including accumulated late payment charges for the billed amounts, become immediately due.
- 55.14.7 Failure by the billed Party to give written notice exercising the right to escalate a dispute pursuant to Section 16.2.3 following a notice of denial under Section 55.13.6 shall also preclude the Party from thereafter requesting an escalation of the same dispute under Section 16.2.3.
- 55.14.8 Failure by the billed Party to make a timely response to a notice of denial under Section 55.13.6 shall result in lifting the suspension of the payment due date for such disputed invoice, and the possible assessment of late charges and suspension or

termination of service for non-payment of billed amount in accordance with this Section 55.

55.15 A billing dispute which has been resolved by a written settlement agreement between the Parties may not be resubmitted under the dispute resolution process.

55.16 Effect of Non-Payment

55.16.1 If the billed Party does not pay all undisputed charges by the Bill Due Date, the billing Party may discontinue processing orders for services provided under this Agreement and may invoke the Default provisions of Section 7.7 on or after the tenth (10th) Day following the Bill Due Date provided the billing Party notifies the other Party in writing, via email or certified mail, at least five (5) Days prior to discontinuing the processing of orders. If the billing Party continues to accept additional orders for service(s) after the date specified in such notice, and the billed Party's non-compliance continues, nothing contained herein shall preclude the billing Party from refusing to accept any or all additional orders for service(s) from the non-complying Party without further notice. For order processing to resume, the billed Party will be required to make full payment of all past and current undisputed charges under this Agreement. Additionally, the billing Party may require a deposit or assurance of payment (or additional deposit or assurance of payment) from the billed Party, pursuant to Section 44. In addition to other remedies that may be available at law or equity, the billed Party reserves the right to seek equitable relief, including injunctive relief and specific performance.

55.16.2 Notwithstanding Section 55.15.1 above, if the billed Party does not pay all undisputed charges on a bill by the Bill Due Date, the billing Party may at its option disconnect any and all relevant or related services provided under this Agreement on or after the thirtieth (30th) day following the Bill Due Date after providing written notification to the billed Party at least seven (7) Business Days prior to disconnection of the unpaid service(s). Such notification may be included in a notification to refuse to accept additional orders pursuant to Section 55.15.1 so long as the appropriate dates for each consequence are listed therein. If the services are disconnected and the billed Party subsequently pays all such undisputed charges and desires to reconnect any such disconnected services, the billed Party shall pay the applicable charge set forth in this Agreement or in the applicable Tariff for reconnecting each service disconnected pursuant to this paragraph. In case of such disconnection, all applicable undisputed charges, including termination charges, shall become due and payable. If the billing Party does not disconnect the billed Party's service(s) on the date specified in such notice, and the billed Party's non-compliance continues, nothing contained herein shall preclude the billing Party from disconnecting all service(s) of the non-complying Party without further notice or from billing and collecting the appropriate charges from the billed Party.

Additionally, the billing Party may require a deposit or assurance of payment (or additional deposit or assurance of payment) from the billed Party, pursuant to Section 44. In addition to other remedies that may be available at law or equity, the billing Party reserves the right to seek equitable relief, including injunctive relief and specific performance.

- 55.16.3 Notwithstanding Sections 55.15.1 and 55.15.2 above, if the billing Party is forced to undertake collection efforts for undisputed, defaulted or post-termination amounts outstanding or for disputed amounts that have been resolved in the billing Party's favor, the billed Party is liable for reimbursement to the billing Party for any and all costs associated with the collection of such a debt, including but not limited to collection agency fees and legal fees.

Interest shall be calculated in accordance with Section 55.12 above
- 56.5 Neither such right to examine and audit nor the right to receive an adjustment shall be affected by any statement to the contrary appearing on checks or otherwise, unless such statement expressly waiving such right appears in writing, is signed by the authorized representative of the Party having such right and is delivered to the other Party in a manner sanctioned by this Agreement.
- 56.6 On thirty (30) Days' written notice, each Party must provide the other the ability and opportunity to conduct an annual audit to ensure the proper routing and billing of traffic. These audits may encompass all traffic or any subset type of traffic at the initiator's option.

## **ARTICLE V. INTERCONNECTION, TRANSPORT AND TERMINATION OF TRAFFIC**

### **63. SERVICES COVERED**

- 63.1 To the extent required by Applicable Law and subject to the terms and conditions of this Agreement, CenturyLink Communications LLC, will interconnect its network with CenturyLink's network for the transmission, routing and termination of Local Traffic, ISP-Bound Traffic, IntraLATA LEC Toll Traffic, Local and Toll VoIP-PSTN Traffic, Transit Traffic and Jointly Provided Switched Access Service Traffic. This Agreement is intended only for Local Traffic consisting of wireline to wireline communications, not for Mobile Wireless Service traffic, and neither Party will route Mobile Wireless Service traffic to the other Party (other than Transit Traffic) without first executing a separate written agreement to govern such traffic.
- 63.1.1 This Article governs the Interconnection of network facilities of the Parties, and the transport, termination and billing of Local Traffic between CenturyLink and CenturyLink Communications LLC,.
- 63.1.2 The Parties shall use separate two-way Feature Group D trunks for the exchange of equal-access InterLATA Toll Traffic or IntraLATA Toll Traffic, (other than IntraLATA LEC Toll Traffic, Toll VoIP-PSTN or Jointly Provided Switched Access Traffic), and such trunks shall be ordered out of and subject to the applicable access tariffs.
- 63.1.3 In the event CenturyLink Communications LLC, routes any traffic to CenturyLink in violation of this Agreement, CenturyLink shall be entitled to seek injunctive relief and to recover damages, including without limitation, compensation for such traffic at access rates irrespective of whether a different rate might apply to such traffic if CenturyLink Communications LLC, had negotiated appropriate arrangements for exchanging such traffic with CenturyLink.
- 63.1.4 Each Party is solely responsible for the services it provides to its End Users and to other providers.

### **64. NETWORK INTERCONNECTION METHODS**

- 64.1 This Section sets forth the terms and conditions for Network Interconnection Methods (NIMs) provided between CenturyLink and CenturyLink Communications LLC, for the Interconnection Facilities established between the Parties' networks. Additionally, this Section describes the physical architecture for the interconnection of the Parties' facilities and equipment required for the transmission and routing of Local Traffic, ISP-Bound Traffic, IntraLATA LEC Toll Traffic, VoIP-PSTN Traffic, Transit Traffic and Jointly Provided Switched Access Service Traffic.
- 64.2 CenturyLink shall provide Interconnection for CenturyLink Communications LLC, 's facilities and equipment for the transmission and routing of Local Traffic and IntraLATA LEC Toll Traffic , at a level of quality equal to that which CenturyLink provides to itself and Affiliates and on rates, terms and conditions that are just, reasonable and non-discriminatory.

### 64.3 Physical Architecture

64.3.1 CenturyLink's network architecture in any given local exchange area and/or LATA can vary markedly from another local exchange area/LATA. Using one or more of the NIMs herein, the Parties will agree to a physical architecture plan for a specific Local Calling Area. The physical architecture plan will be discussed during joint implementation planning. CenturyLink Communications LLC, and CenturyLink agree to Interconnect their networks through existing and/or new Interconnection Facilities between CenturyLink Communications LLC, switch(es) and CenturyLink's End Office Switch(es) and/or Tandem Switch(es). The physical architecture plan will be in accordance with Forecasting and Planning requirements in Article IV.

64.3.2 Either Party must provide thirty (30) Days written notice of any changes to the physical architecture plan.

64.3.3 Each Party is solely responsible for the facilities that carry OS/DA, 911 or Mass Calling for their respective End Users. Separate trunks ordered via ASRs at Tariffed rates must be utilized for connecting CenturyLink Communications LLC,'s switch(es) to each of these services.

64.3.4 Trunk requirements for forecasting and servicing shall be based on an overall blocking objective of one percent (1%) during the average time-consistent busy hour, as defined by standard trunk traffic engineering principles. For the final trunk groups between a CLEC End Office and a CenturyLink End Offices, direct trunk groups are to be engineered with a blocking objective of one percent (1%). Trunks to access Tandems carrying Jointly Provided Switched Access Traffic and all other Tandem trunk groups are to be engineered with a blocking objective of one-half percent (0.5%).

### 64.4 Points of Interconnection (POIs)

64.4.1 CenturyLink Communications LLC, must establish a minimum of one POI on CenturyLink's network within each LATA in accordance with the terms of this Agreement. CenturyLink Communications LLC, shall establish additional POIs under the following circumstances:

- a. CenturyLink Communications LLC, must establish a POI at each Tandem Switch in the LATA where it wishes to exchange (i.e., receive or terminate) any types of traffic which are permitted under Section 63.1 with CenturyLink or where it has established codes within that tandem serving area..
- b. When a CenturyLink End Office Switch subtends a CenturyLink Tandem Switch, CenturyLink Communications LLC, must establish a POI at a CenturyLink End Office when total traffic volumes exchanged between the Parties at that particular CenturyLink End Office (inclusive of any Remote Switches served by that End Office) exceeds, or is expected to exceed, the thresholds as set forth in Section 64.4.2.
- c. When a CenturyLink End Office Switch subtends a non-CenturyLink Tandem, CenturyLink Communications LLC, must

establish a POI at each CenturyLink End Office Switch that subtends a non-CenturyLink Tandem based on the thresholds as set forth in Section 64.4.2 being met.

- d. To the extent CenturyLink's network contains multiple non-contiguous exchanges in the LATA that are not interconnected by CenturyLink-owned network, CenturyLink Communications LLC, must establish a POI at each separate non-interconnected exchange or each separate group of exchanges that are interconnected by CenturyLink-owned network where it wishes to exchange (i.e., receive or terminate) any types of traffic which are permitted under Section 63.1 with CenturyLink
- e. CenturyLink Communications LLC, may be required to establish additional POIs to comply with the limitations on porting to carriers having facilities or numbering resources in the same Rate Center, or to carriers who have partnered with a wireline carrier for numbering resources where the partnering carrier has facilities or numbering resources in the same Rate Center, pursuant to Section 90.2.

#### 64.4.2 POI Thresholds

- a. When the total volume of traffic exchanged between the Parties at a CenturyLink End Office exceeds 200,000 MOU per month, or the one-way traffic from either Party exceeds 100,000 MOU per month, CenturyLink Communications LLC, must establish a POI with CenturyLink's End Office for the mutual exchange of traffic within thirty (30) Days of when the traffic exceeds the MOU per month threshold. In situations where CenturyLink's network contains host and remote End Offices, any traffic from remote End Offices will be included in the MOU determination of the traffic from the host End Office.
- b. Notwithstanding any other provision to the contrary, if either Party is assessed transiting costs by a third party and such charges associated with a single traffic exchange route between the Party and the Tandem owner exceed two hundred dollars (\$200.00) for one month, CenturyLink Communications LLC, must establish a POI with CenturyLink's End Office for the mutual exchange of traffic within thirty (30) Days.

64.4.3 The Parties may mutually agree to establish additional POIs even where none of the conditions set forth in Sections 64.4.1 and 64.4.2 of this Article has occurred.

64.4.4 CenturyLink Communications LLC, will be responsible for engineering and maintaining its network on its side of a POI. CenturyLink will be responsible for engineering and maintaining its network on its side of a POI. The Parties may utilize any Network Interconnection Method described in this Section 64. Each Party is responsible for the appropriate sizing, operation, maintenance and cost of the transport facility to a POI.

64.4.5 Each Party is financially responsible for transport on its side of each POI. If CenturyLink Communications LLC, chooses to lease the facility from

each POI to CenturyLink Communications LLC,'s network from CenturyLink and the facility is within CenturyLink's serving territory, CenturyLink Communications LLC,will lease the facility from CenturyLink's as defined in Section 64.5.64.4.6 CenturyLink Communications LLC,shall be required to establish a CLLI Code for the message/switch ACTL, at the CenturyLink tandem or End Office switch where the Interconnection trunk terminates.

64.4.7 If CenturyLink Communications LLC,is acting as an IXC and as a competitive local exchange carrier, CenturyLink Communications LLC,must have a unique Operating Company Number (OCN) when ordering as CenturyLink Communications LLC,entity. When CenturyLink Communications LLC,orders IXC Feature Group D Switched Access Services, the access tariff applies.

#### 64.5 Network Interconnection Methods for Direct Interconnection

##### 64.5.1 Leased Facility

a. Where facilities exist, CLEC may lease facilities from CenturyLink to establish Interconnection through CenturyLink's provision of a DS1 or DS3 Local Interconnection Entrance Facility and Direct Trunked Transport. A Local Interconnection Entrance Facility extends from the CenturyLink Serving Wire Center to CLEC's Switch or other CLEC Premises within CenturyLink's applicable serving area. Local Interconnection Entrance Facilities may not extend beyond the area served by the CenturyLink Serving Wire Center. The rates for Local Interconnection Entrance Facilities are provided in Table 1. Local Interconnection Entrance Facilities may not be used for Interconnection with Unbundled Network Elements, or in a manner inconsistent with the requirements of Section 63.1. CenturyLink's special access service is available as an alternative to CenturyLink provided Local Interconnection Entrance Facilities, subject to Section 66.2.8.1.2. CenturyLink's Switched Access Services are also available as an alternative to CenturyLink provided Local Interconnection Entrance Facilities, subject to Section 66.2.8.1.3. CLEC may also lease access facilities from a third party.b. To the extent required by Applicable Law, traffic may be delivered to each Point of Interconnection (POI) through Collocation arrangements offered by CenturyLink pursuant to this Agreement, a separate Collocation agreement, or the rates, terms and conditions set forth in CenturyLink's applicable Tariff, where such Tariff is available.

##### 64.5.2 Mid Span Fiber Meet.

a. The Parties may interconnect at a Mid Span Fiber Meet subject to the following terms and conditions:

1. The Mid Span Fiber Meet, as proposed, must be at a mutually agreeable, economically and technically feasible point between CenturyLink's Serving Wire Center End Office and CenturyLink Communications LLC,'s Premises, and will be within the CenturyLink Local Calling Area.

2. The Mid Span Fiber Meet will be subject to reasonable engineering, environmental, safety and security requirements. Such requirements shall include, without limitation, the technical ability to accommodate testing on each side of the mid-span Meet Point and to provide for a point of demarcation between the networks of each party and the ability to control the environment.
3. The construction of new facilities for a Mid Span Fiber Meet is only applicable when traffic is roughly balanced.
4. CenturyLink will provide up to fifty percent (50%) of the facilities needed to connect the networks of the Parties, or to CenturyLink's exchange boundary, whichever is less.
5. CenturyLink Communications LLC, shall establish a CLLI code for the facility ACTL at the Mid-Span Fiber Meet in addition to any other CLLI code required for the trunks in this Agreement.

64.5.3 Third Party ILEC Meet Point using Leased Facilities. If CenturyLink Communications LLC, chooses to interconnect with CenturyLink using a third party ILEC Meet-Point arrangement (i.e., leased switched access facilities jointly provisioned by CenturyLink and a third party ILEC), then any portion of such facilities provided by CenturyLink will be ordered from CenturyLink's access Tariff.

64.5.4 Self-Provisioned. CenturyLink Communications LLC, may construct or otherwise self-provision Interconnection facilities.

#### 64.6 Direct Interconnection at the CenturyLink Tandem

64.6.1 Subject to Section 64.4, Interconnection to a CenturyLink Tandem Switch will provide CenturyLink Communications LLC, local Interconnection for Local Traffic to the CenturyLink End Offices, Remote Offices and NXXs which subtend that Tandem Switch.

64.6.2 In accordance with Section 67, interconnection to a CenturyLink Tandem for Transit Traffic purposes will provide access to Telecommunications Carriers which are connected to that same Tandem Switch.

64.6.3 CenturyLink Communications LLC, is responsible for provisioning its traffic to interface into CenturyLink's Tandem at the DS1 level, including any muxing necessary for such purposes. If CLEC orders CenturyLink Interconnection Facilities for this, the CLEC shall pay the applicable Local Interconnection Entrance Facility, Direct Trunked Transport, and multiplexing rates from Table 1. If CLEC orders CenturyLink's access services for this, the CLEC shall pay based on CenturyLink's applicable access tariff instead of Table 1.

#### 64.7 Direct Interconnection at the CenturyLink End Office

64.7.1 Interconnection to a CenturyLink End Office Switch will provide CenturyLink Communications LLC, local Interconnection for Local Traffic purposes to the CenturyLink NXX codes served by that End Office Switch and any CenturyLink NXXs served by Remote Switches that subtend that host End Office Switch.

64.7.2 CenturyLink Communications LLC, is responsible for provisioning its traffic to interface into CenturyLink's End Office at the DS1 level, including switch port and any multiplexing necessary for such purposes. If CLEC uses CenturyLink Interconnection Facilities for this, the CLEC shall pay the applicable Local Interconnection Entrance Facility, Direct Trunked Transport, and multiplexing rates from Table 1. If CLEC orders CenturyLink's access services for this, the CLEC shall pay based on CenturyLink's applicable access tariff instead of Table 1.

#### 64.8 Indirect Network Connection

- 64.8.1 For purposes of this Agreement, "Indirect Traffic" means traffic which is originated by one Party and terminated to the other Party in which a third party ILEC's tandem switch both provides the intermediary transit service and serves CenturyLink's NXXs. Indirect Network Connection for Indirect Traffic is intended only for de minimus traffic associated with CenturyLink Communications LLC, "start-up" market entry into a CenturyLink local exchange. Therefore Indirect Network Connection will be allowed only on routes between CenturyLink end offices and a CenturyLink Communications LLC, switch in instances where, and only so long as, none of the triggers set forth in this Section 64.8 have been reached.
- 64.8.2 Indirect Network Connection shall be accomplished by CenturyLink and CenturyLink Communications LLC, each being responsible for delivering Local Traffic to and receiving Local Traffic at the ILEC Tandem serving the CenturyLink End Office. Each Party acknowledges that it is the originating Party's responsibility to enter into transiting arrangements with the third party providing the transit services. Each Party is responsible for the facilities to the Meet Point with the ILEC on the CenturyLink side of the ILEC Tandem, and for the appropriate sizing, operation, and maintenance of the transport facility to the Tandem.
- 64.8.3 Notwithstanding any other provision to the contrary, once the total volume of Indirect Traffic exchanged between the Parties at an CenturyLink End Office exceeds 200,000 MOU per month, or the one-way traffic from either Party exceeds 100,000 MOU per month, CenturyLink Communications LLC, must establish a POI with CenturyLink's End Office for the mutual exchange of traffic within thirty (30) Days of when the Indirect Traffic exceeds the MOU per month threshold. In situations where CenturyLink's network contains host and remote End Offices, any traffic from remote End Offices will be included in the MOU determination of the traffic from the host End Office.
- 64.8.4 Notwithstanding any other provision to the contrary, if CenturyLink is assessed transiting costs by a third party and such charges associated with a single traffic exchange route between the Party and the tandem owner exceed two hundred dollars (\$200.00) for one month, CenturyLink Communications LLC, must establish a POI with the CenturyLink End Office serving that route for the mutual exchange of traffic within thirty (30) Days.

- 64.8.5 If CenturyLink Communications LLC,has not established a POI within thirty (30) Days after exceeding the triggers in Sections 64.8.3 or 64.8.4, CenturyLink Communications LLC,will reimburse CenturyLink for any transit charges billed by an intermediary carrier after the thirty (30) Day period for traffic originated by CenturyLink. CenturyLink Communications LLC,will also reimburse CenturyLink for any transport costs that would be CenturyLink Communications LLC,'s responsibility under the Direct Interconnection terms.
- 64.8.6 Each terminating Party is responsible for billing the originating company for traffic terminated on its respective network. To the extent a Party combines Local Traffic, IntraLATA LEC Toll Traffic, Toll VoIP-PSTN Traffic and Jointly Provided Switched Access Service Traffic on a single trunk group for indirect delivery through a third party's Tandem, the originating Party, at the terminating Party's request, will declare quarterly Percentages of Local Use (PLUs). CenturyLink will determine the jurisdiction of a call if CenturyLink has sufficient call details.
- a. Such PLUs will be verifiable with either call summary records utilizing Calling Party Number (CPN) information for jurisdictionalization of traffic, call detail samples, or traffic study documentation. The terminating Party should apportion per Minute Of Use (MOU) charges appropriately.

## **65. SIGNALING AND INTERCONNECTION TRUNKING REQUIREMENTS**

- 65.1 This Section sets forth certain signaling requirements and the terms and conditions for Interconnection provided by CenturyLink and CenturyLink Communications LLC,and provides descriptions of the trunking requirements between CenturyLink Communications LLC,and CenturyLink. This Section describes the required and optional trunk groups for Local and Mass Calling.
- 65.2 Signaling Parameters: CenturyLink and CenturyLink Communications LLC,are required to provide each other the proper signaling information (e.g., originating Calling Party Number (CPN), Charge Number (ChN) and destination called party number, etc.) as required by Applicable Rules and further clarified by the FCC's ICC Order to enable each Party to issue bills in a complete and timely fashion. All CCS signaling parameters will be provided unchanged including CPN, calling party category, ChN and Originating Line Information Parameter (OLIP) on all calls. All privacy indicators will be honored. Unless the FCC has approved a waiver petition regarding specific technical restrictions, the ChN is to be passed unaltered in SS7 signaling fields where it is different than CPN and ChN must not be populated with a number associated with an intermediate switch, platform, or gateway, or other number that designates anything other than a calling party's charge number. Where SS7 connections exist, each Party shall pass all CCS signaling parameters, where available, on each call carried over Interconnection trunks. The Parties will coordinate and exchange data as necessary to determine the cause of the CPN/ChN failure and to assist its correction.
- 65.3 The Parties shall use separate two-way Feature Group D trunks for the exchange of any traffic which is not Local Traffic, except for Toll VoIP-PSTN Traffic, IntraLATA LEC Toll Traffic and Jointly Provided Switched Access Service Traffic (as defined by MECAB and MECOD) and such trunks shall be ordered out of and subject to the applicable access tariffs. In the event CenturyLink

Communications LLC, routes any traffic to CenturyLink in violation of this section, CenturyLink shall be entitled to seek injunctive relief and to recover damages, including without limitation, compensation for such traffic at the rates applicable to intrastate access traffic which is not VoIP-PSTN Traffic.

65.4 One Way and Two Way Trunk Groups.

65.4.1 The Parties agree to establish bi-directional two-way trunk groups for Local Traffic and IntraLATA LEC Toll Traffic that has not been routed to an IXC and separate two-way trunk groups for Jointly Provided Switched Access Traffic. Trunks will utilize Signaling System 7 (SS7) signaling protocol. Multi-frequency (MF) signaling protocol may only be used where CenturyLink Communications LLC, can demonstrate that it is not technically feasible to use SS7 or where CenturyLink otherwise agrees to use MF.

65.4.2 Bi-directional two-way trunking for Local Traffic will be jointly provisioned and maintained, with each Party being responsible for costs on its side of the POI.

65.4.3 The costs associated with transporting Information Service Traffic to CenturyLink Communications LLC, shall be the sole responsibility of CenturyLink Communications LLC,. CenturyLink is not obligated under this Agreement to provision orders for reciprocal trunks or build facilities in the establishment of Interconnection arrangements solely for the delivery of Information Service Traffic. Facilities for Information Service Traffic shall be ordered from the appropriate Tariff and CenturyLink Communications LLC, will be obligated to pay the full cost of such facilities. An upfront charge will apply for any new facilities or network modifications requested by CenturyLink Communications LLC, and agreed upon by CenturyLink.

65.4.4 For administrative consistency CenturyLink Communications LLC, will have control for the purpose of issuing Access Service Requests (ASRs) on two-way groups. CenturyLink Communications LLC, will also use ASRs to request or make necessary changes in trunking.

65.4.5 With respect to any two-way trunks established as one-way in each direction and separate one-way trunks for local services previously established between the Parties, the Parties will transition such trunks to bi-directional trunks in accordance with the following:

- a. The Parties understand that conversion of trunking arrangements from directionalized to bi-directional requires technical and operational coordination between the Parties. Accordingly, the Parties agree to work together to develop a plan to identify processes, guidelines, specifications, time frames and additional terms and conditions necessary to support and satisfy the standards set forth in the Agreement and implement the conversion of trunking arrangements (the "Conversion Plan").
- b. The Conversion Plan will identify all trunks to be converted from directionalized to bi-directional arrangements.

65.4.6 Separate ancillary trunk groups may be established based on billing, signaling, and network requirements, and will be purchased from the applicable Tariff.

- a. Ancillary trunk groups will utilize Signaling System 7 (SS7) protocol. Multi-frequency (MF) signaling protocol may only be used where CenturyLink Communications LLC, can demonstrate that it is not technically feasible to use SS7 or where CenturyLink otherwise agrees to use MF.
- b. Separate trunk groups may be required by CenturyLink for certain traffic types including, but not limited to:
  1. 911/E911 trunks;
  2. Mass Calling trunks, if applicable; and
  3. Toll Free Service trunks where CenturyLink Communications LLC, provides such service to its End User customers.

## 65.5 Trunk Groups

65.5.1 CenturyLink Communications LLC, shall provide all SS7 signaling information pursuant to Signaling Parameters Section 65.2. For terminating Jointly Provided Switched Access, CenturyLink will pass all SS7 signaling information including, without limitation, any CPN and JIP received from FGD carriers. All privacy indicators will be honored. Where available, network signaling information such as transit network selection (TNS) parameter, Carrier Identification Codes (CIC) CCS platform and CIC/OZZ information (non-SS7 environment) will be provided by CenturyLink Communications LLC, wherever such information is needed for call routing or billing. The Parties will follow all Network Operations Forum (NOF) adopted standards and all OBF adopted standards pertaining to TNS and CIC/OZZ codes.

65.5.2 CenturyLink Communications LLC, and CenturyLink shall, where applicable, make reciprocally available, the required trunk groups to handle different traffic types.

- a. Any Local Traffic routed over Switched Access Service trunks will be billed the intrastate terminating access rate. Neither party shall route Switched Access Service traffic over Local Interconnection Trunks.
- b. Each Party shall only deliver traffic over the Local Interconnection Trunk Groups to the other Party's Tandem or End Office for those NXX Codes served by that Tandem or End Office as applicable in accordance with the LERG.

## 65.6 Trunk Servicing

65.6.1 Orders between the Parties to establish, add, change or disconnect trunks shall be processed by using an Access Service Request (ASR). CenturyLink Communications LLC, will have administrative control for the purpose of issuing ASR's on both two-way and one-way trunk groups.

Parties will jointly manage the capacity of Local Interconnection Trunk Groups.

65.6.2 Should CenturyLink Communications LLC, request trunking from CenturyLink in excess of the industry traffic engineering design blocking standard set forth in Section 64.3.4. CenturyLink is not obligated to provide such trunking unless CenturyLink Communications LLC, agrees in writing to pay for the excess trunking on the CenturyLink side of the POI.

65.6.3 Utilization shall be defined as 'trunks required' as a percentage of trunks in service. Trunks required shall be determined using methods described in Section 64.3.4 using design utilization criteria stated in Section 65.6.2.

65.6.4 Underutilization: Underutilization of Interconnection Trunks and facilities exists when provisioned capacity of trunks in service for more than six (6) months is greater than the current need. This over-provisioning is an inefficient deployment and use of network resources and results in unnecessary costs. Those situations where more capacity exists than actual usage will be handled in the following manner:

- a. If a final trunk group is under seventy-five percent (75%) of CCS capacity or a high usage trunk group is under 90% of CCS capacity on a monthly average basis, for each month of any three (3) consecutive months period, either Party may request the issuance of an order to resize the trunk group, which shall be left with not less than twenty-five percent (25%) excess capacity. In all cases POI requirements and grade of service objectives shall be maintained.
- b. CenturyLink Communications LLC, will send an ASR to CenturyLink to trigger changes to the Local Interconnection Trunk Groups based on capacity assessment.
- c. Upon review of the ASR if a Party does not agree with the resizing, the Parties will schedule a joint planning discussion within twenty (20) Business Days. The Parties will meet to resolve and mutually agree to the disposition of the initiating ASR.
- d. In the event that CenturyLink Communications LLC, over-forecasts its trunking requirements consistent with this Section, and CenturyLink acts upon this forecast to its detriment, CenturyLink may recoup any actual and reasonable expense it incurs. Such expenses will be recouped for non-recoverable facilities.

65.7 CenturyLink Communications LLC, will be responsible for engineering its network on its side of the Point of Interconnection (POI). CenturyLink will be responsible for engineering its network on its side of the POI.

65.8 Where facilities are available, due dates for the installation of Local Interconnection Trunks covered by this Section shall be in accordance with the Standard Practices as published on the CenturyLink Website. If either CenturyLink Communications LLC, or CenturyLink is unable to or not ready to perform Acceptance Tests, or is unable to accept the Local Interconnection Trunk(s) by the due date, the Parties will reschedule a mutually acceptable date.

65.9 Trunk Data Exchange

65.9.1 Each Party agrees to service trunk groups to the blocking criteria in Section 64.3.4 in a timely manner when trunk groups exceed measured blocking thresholds on an average time consistent busy hour for a twenty-one (21) Day study period. The Parties agree that twenty-one (21) Days is the study period duration objective unless mutually agreed otherwise. The study period will not include a holiday.

#### 65.10 Network Management

65.10.1 Restrictive Controls. Either Party may use protective network traffic management controls such as 7-digit and 10-digit code gaps set at appropriate levels on traffic toward each other's network, when required, to protect the public switched network from congestion due to facility failures, switch congestion, or failure or focused overload. CenturyLink Communications LLC, and CenturyLink will immediately notify each other of any protective control action planned or executed.

65.10.2 Expansive Controls. Where the capability exists, originating or terminating traffic reroutes may be implemented by either Party to temporarily relieve network congestion due to facility failures or abnormal calling patterns. Reroutes will not be used to circumvent normal trunk servicing. Expansive controls will only be used when mutually agreed to by the Parties.

65.10.3 Temporary Mass Calling. CenturyLink Communications LLC, and CenturyLink shall cooperate and share pre-planning information, where available, regarding cross-network call-ins expected to generate large or focused temporary increases in call volumes, to prevent or mitigate the impact of these events on the public switched network.

#### 65.11 Technical Interfaces

65.11.1 CenturyLink Communications LLC, is responsible for provisioning its traffic to CenturyLink's switch port at the DS1 level, including any multiplexing necessary for such purposes.

65.11.2 Where available, each Party shall cooperate to ensure that its trunk groups are configured utilizing the B8ZS Extended Superframe protocol for 64 kbps Clear Channel Capability (64CCC) transmission to allow for ISDN interoperability between the Parties' respective networks. Trunk groups configured for 64CCC and carrying Circuit Switched Data (CSD) ISDN calls may include the appropriate Trunk Type Modifier in the common line circuit (CLCI) - Message code. Trunk groups configured for 64CCC and not used to carry CSD ISDN calls may include a different appropriate Trunk Type Modifier in the CLCI-Message code. Where B8ZS/ESF is not available CenturyLink Communications LLC, will use other Interconnection protocols on an interim basis until the standard B8ZS/ESF is available. CenturyLink will provide anticipated dates of availability for those areas not currently B8ZS/ESF compatible.

65.11.3 Signaling protocol. The parties will interconnect their networks using SS7 signaling where technically feasible and available as defined in GR 905 Telcordia Standards including ISDN User Part (ISUP) for trunk signaling and TCAP for CCS-based features in the Interconnection of their networks. All Network Operations Forum (NOF) adopted standards shall be adhered to. Where available, CenturyLink signaling services to link its Signaling Transfer Points (STPs) for CenturyLink Communications LLC, switches which connect to CenturyLink's STPs via "A" links or for CenturyLink Communications LLC's STPs to connect to CenturyLink's STPs via "D" links which are dedicated to the transport of signaling for local Interconnection, may be ordered from the CenturyLink Tariff.

65.12 Responsibilities of the Parties

65.12.1 CenturyLink Communications LLC, and CenturyLink will work cooperatively to install and maintain a reliable network. CenturyLink Communications LLC, and CenturyLink shall exchange appropriate information (e.g., maintenance contact numbers, network information, information required to comply with law enforcement and other security agencies of the federal and State government and such other information as the Parties shall mutually agree) to achieve this desired reliability.

65.12.2 CenturyLink Communications LLC, and CenturyLink will review engineering requirements as necessary and establish semi-annual forecasts for facilities utilization provided under this Article.

65.12.3 CenturyLink Communications LLC, and CenturyLink will provide trained personnel with adequate and compatible test equipment to work with each other's technicians.

65.12.4 CenturyLink Communications LLC, and CenturyLink will notify each other when there is any change affecting the service requested, including the due date.

65.12.5 CenturyLink Communications LLC, and CenturyLink will recognize that a facility handoff point must be agreed to as part of the process of the Implementation Plan that establishes the demarcation for maintenance and provisioning responsibilities for each Party.

65.12.6 CenturyLink Communications LLC, and CenturyLink will review engineering requirements consistent with the Implementation Plan as described in and as otherwise set forth in this Agreement.

65.12.7 CenturyLink Communications LLC, and CenturyLink will share responsibility for all control office functions for Local Interconnection Trunks and trunk groups, and both parties shall share the overall coordination, installation, and maintenance responsibilities for these trunks and trunk groups.

65.12.8 CenturyLink Communications LLC, and CenturyLink will coordinate and schedule testing activities of their own personnel, and others

as applicable, to ensure its Interconnection trunks/trunk groups are installed per the Interconnection order, meet agreed-upon acceptance test requirements, and are placed in service by the due date.

- 65.12.9 CenturyLink Communications LLC, and CenturyLink will perform isolation analysis to determine if a trouble is located in its facility or its portion of the Interconnection trunks prior to referring the trouble to each other.
- 65.12.10 CenturyLink Communications LLC, and CenturyLink will advise each other if there is an equipment failure which may affect the Interconnection trunks.
- 65.12.11 CenturyLink Communications LLC, and CenturyLink will provide each other with a trouble reporting/repair contact number that is readily accessible and available twenty-four (24) hours a day, seven (7) days a week. Any changes to this contact arrangement must be immediately provided to the other party.
- 65.12.12 CenturyLink Communications LLC, and CenturyLink will provide to each other test-line numbers and access to test lines.
- 65.12.13 CenturyLink Communications LLC, and CenturyLink will cooperatively plan and implement coordinated repair procedures for the Meet Point and Local Interconnection Trunks and facilities to ensure trouble reports are resolved in a timely and appropriate manner.

65.13 Neither Party shall use any Interconnection, function, facility, product, Network Element, or service provided under this Agreement or any other service related thereto or used in combination therewith in any manner that interferes with or impairs service over any facilities of either Party, its affiliated companies or other connecting Telecommunications Carriers, prevents any carrier from using its Telecommunication Service, impairs the quality or privacy of Telecommunications Service to other carriers or to either Party's End Users, causes hazards to either Party's personnel or the public, damage to either Party's or any connecting carrier's facilities or equipment, including any malfunction of ordering or billing systems or equipment. Upon such occurrence, either Party may discontinue or refuse service for so long as the other Party is violating this provision. Upon any such violation, either Party shall provide the other Party notice of the violation at the earliest practicable time.

## **66. INTERCARRIER COMPENSATION**

### **66.1 General Terms**

66.1.1 For compensation purposes, the jurisdiction of a call is determined by the physical location of the origination and termination of such call, except as may otherwise be specified herein for VoIP-PSTN Traffic.

#### **66.1.2 VoIP-PSTN Traffic**

- a. Local VoIP-PSTN Traffic. CenturyLink Communications LLC, and CenturyLink will exchange Local VoIP-PSTN Traffic on the same basis and at the same rates as Local Traffic which is not VoIP-PSTN Traffic. VoIP-PSTN Traffic will be identified as either Local

or non-Local by using the originating and terminating call detail information of each call unless the Parties specifically agree otherwise. This call jurisdiction method described herein is intended by the Parties as a proxy to determine the jurisdiction of a call (i.e. the actual geographic end points of the call) and the Parties acknowledge that there may be some circumstances where the actual geographic end points of a particular call may be difficult or impossible to determine. At any time during the term of this Agreement, CenturyLink Communications LLC, and CenturyLink may agree on alternate methods to establish call jurisdiction for Local VoIP-PSTN Traffic based on regulatory or technological evolution. The Parties agree that it is in the best interest of both Parties to work together in an effort to continue to improve the accuracy of jurisdictional data and such efforts shall not be unreasonably withheld by either Party. This paragraph shall not be controlling nor affect the determination of the proper jurisdiction or the geographic end points of any traffic which is not VoIP-PSTN Traffic, including without limitation, any VNXX Traffic.

b. Toll VoIP-PSTN Traffic

1. CenturyLink Communications LLC, and CenturyLink will exchange Toll VoIP-PSTN Traffic, including any Toll VoIP-PSTN Traffic which transits a CenturyLink Tandem, at each Party's interstate access rates. Any non-Local Traffic which is not Toll VoIP-PSTN Traffic shall be routed in accordance with Section 63.12. VoIP-PSTN Traffic will be identified as either Local Traffic or non-Local Traffic by using the originating and terminating call detail information of each call unless the Parties specifically agree otherwise. This call jurisdiction method described herein is intended by the Parties as a proxy to determine the jurisdiction of a call (i.e. the actual geographic end points of the call) and the Parties acknowledge that there may be some circumstances where the actual geographic end points of a particular call may be difficult or impossible to determine. At any time during the term of this Agreement, CenturyLink Communications LLC, and CenturyLink may agree on alternate methods to establish call jurisdiction for Toll VoIP-PSTN Traffic based on regulatory or technological evolution. The Parties agree that it is in the best interest of both Parties to work together in an effort to continue to improve the accuracy of jurisdictional data and such efforts shall not be unreasonably withheld by either Party.

2. The facilities, or portion thereof, leased by CLEC from CenturyLink which are used to exchange Toll VoIP-PSTN Traffic shall be subject to CenturyLink's interstate access tariff rates. CenturyLink will use the Facilities Percent VoIP Usage (Facility-PVU) factor in Table 1 to determine the portion of the Local Interconnection Entrance Facility, Direct Trunked Transport, and MUX that shall be deemed the portion of the facility used to carry Toll VoIP-PSTN Traffic.

2.1 The Facility-PVU factor shall be the percentage of the total traffic CLEC routes to CenturyLink for termination using Local Interconnection Trunks which is Toll VoIP-PSTN Traffic. The Facility-PVU factor shall be based on information such as the number of the CLEC's retail VoIP subscriptions in the state (e.g. as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information which the parties will exchange.

3. The Contract-PVU factor shall be the percentage of total terminating intrastate non-Local Traffic which is Toll VoIP-PSTN Traffic that in the absence of such Contract-PVU, would be billed at intrastate access rates. The Contract-PVU factor shall be based on information such as the number of the CenturyLink Communications LLC,'s retail VoIP subscriptions in the state (e.g. as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information which will be exchanged by the parties. The Contract-PVU factor may be updated by an amendment mutually negotiated by the Parties.
4. 5. Any factors established by the Parties under Section 66.1.2 shall be based on the particular characteristics of the traffic exchanged within the State between CenturyLink Communications LLC, and CenturyLink and shall not be subject to adoption by anyone not a Party to this Agreement, or apply to any other service areas.

## 66.2 Compensation for Transport and Termination of Local Traffic

- 66.2.1 Reciprocal Compensation applies for transport and termination of Local Traffic terminated by either Party.
- 66.2.2 The rate elements for transporting and terminating Local Traffic can be found in Table 1.
- 66.2.3 The terminating Party may bill the other Party Reciprocal Compensation for all Local Traffic MOU routed by the other party for termination.
- 66.2.4 CenturyLink Communications LLC, and CenturyLink agree to terminate each other's ISP-Bound Traffic on a Bill and Keep basis. "Bill and Keep"

shall mean that the originating Party has no obligation to pay terminating charges to the terminating Party.

#### 66.2.5 Recording for Reciprocal Compensation

- a. Each Party will calculate terminating MOU based on standard Automatic Message Accounting (AMA) recordings made within each Party's network. These recordings are the basis for each Party to generate bills to the other Party. For purposes of Reciprocal Compensation only, measurement of MOU over Local Interconnection Trunk Groups shall be in actual conversation seconds. The total conversation seconds over each individual Local Interconnection Trunk Group will be totaled for the entire monthly bill and then rounded to the next whole minute. Notwithstanding the above, either Party may use its SS7 data to verify and adjust billing as appropriate.

#### 66.2.6 Recording for Indirect Interconnection

- a. For any traffic exchanged between the Parties via third party Tandems, each Party will either record the traffic it terminates in accordance with this Section, or will utilize records provided by the Tandem provider to invoice for traffic terminating on its network.

#### 66.2.7 Billing Elements for Local Transport and Termination

- a. The transport and termination elements for Local Traffic depend on the type of Interconnection between the Parties.
  1. When the POI is connected to the CenturyLink Tandem Switch or in a Mid-Span Fiber Meet arrangement connected to the CenturyLink Tandem Switch, when calls from CenturyLink Communications LLC, End Users are terminating to CenturyLink End Users through the CenturyLink Tandem Switch, CenturyLink Communications LLC, will pay CenturyLink Tandem Switching, Common Transport, and End -Office termination. CenturyLink Communications LLC, shall also pay Common Transport for calls that terminate at a CenturyLink Remote Switch served by the CenturyLink host End Office Switch.
  2. When the POI is connected to the CenturyLink End Office Switch or in a Mid-Span Fiber Meet arrangement connected to the CenturyLink End Office Switch, and calls from CenturyLink Communications LLC, End Users are terminating to CenturyLink End Users through the End Office Switch, CenturyLink Communications LLC, shall pay CenturyLink End Office termination. CenturyLink Communications LLC, shall also pay Common Transport for calls that terminate at a CenturyLink Remote Switch served by the CenturyLink host End Office Switch.
  3. For Indirect Network Connection, CenturyLink Communications LLC, shall pay Common Transport and

End Office termination for calls that terminate at a CenturyLink End Office Switch.

66.2.8 Billing Elements for Interconnection Facility

66.2.8.1 Local Interconnection Entrance Facility

66.2.8.1.1 Recurring and nonrecurring rates for Local Interconnection Entrance Facilities are specified in Table 1 and will apply for those DS1 or DS3 facilities dedicated to use as Interconnection and ordered as Interconnection Facilities.

66.2.8.1.2 If CLEC chooses to provision facilities over an existing facility purchased as special access service from the CenturyLink state or FCC access Tariffs, the rates from those Tariffs will apply instead of Local Interconnection Entrance Facility charges from Table 1.

66.2.8.1.3 If CLEC chooses to order Interconnection Facilities as Switched Access Service from the CenturyLink state and FCC access Tariffs, the rates from those Tariffs will apply instead of Local Interconnection Entrance Facility, DTT, and MUX charges from Table 1.

66.2.8.2 Recurring rates for Direct Trunked Transport (DTT) are specified in Table 1 and will apply for those DS1 or DS3 facilities dedicated to use as Interconnection and ordered as Interconnection Facilities. Direct Trunked Transport (DTT) is available between the Serving Wire Center of the Local Interconnection Entrance Facility or Collocation and the terminating and/or transiting Tandem Switch or End Office Switches.

66.2.8.2.1 When DTT is provided to a Tandem Switch, the applicable DTT rate elements apply between the Serving Wire Center and the Tandem Switch. Tandem Switching and Common Transport rate elements apply for delivery of traffic to the terminating End Office Switch.

66.2.8.2.2 Rate band shall be determined for DTT based on the combination of the Serving Wire Center and the Tandem Switch or End Office Switch. Pending system conversions may require a change to a new standard DTT rate structure which will be reflected in an amended Table 1.

66.2.8.2.3 If the Parties elect to establish two-way Local Interconnection Trunks for reciprocal exchange of traffic, the cost of the two-way Local Interconnection Entrance Facility and DTT shall be shared among the Parties.

66.2.8.2.3.1 CenturyLink will bill CLEC for the entire DTT and Local Interconnection Entrance Facility provided by CenturyLink at the rates in Table 1. CLEC will bill

CenturyLink for CenturyLink's portion of the same DTT and Local Interconnection Entrance Facility based on the portion defined in 66.2.8.2.3.2 and at the rates in Table 1.

66.2.8.2.3.2 CenturyLink's portion of the DTT and Local Interconnection Facility will be based on the factor determined by CenturyLink using the following to assign the minutes for which CenturyLink is responsible:

- All Local Traffic Minutes of Use (MOU) that CenturyLink originates and sends to CLEC.
- All CenturyLink originated IntraLATA LEC Toll MOU that CenturyLink sends to CLEC.
- All other minutes are CLEC's responsibility for purposes of allocating the shared costs.

66.2.8.2.3.3 CLEC may bill CenturyLink for CenturyLink's use of the Local Interconnection Entrance Facility and DTT provided by the CLEC on CLEC's side of the POI, which are within the LATA and CenturyLink's serving territory, based on the portion defined in 66.2.8.2.3.2 and the rates in Table 1.

66.2.9 Multiplexing (DS1/DS3 MUX) is available at the rate specified in Table 1. If the Interconnection Facility was ordered as Switched Access Service, then the tariffed rates apply instead of the MUX rates from Table 1.

66.2.10 Trunk Nonrecurring charges

66.2.10.1 Installation and Disconnect nonrecurring charges may be assessed by the provider for each Interconnection Trunk ordered at the rates in Table 1.

66.2.10.2 Nonrecurring charges for rearrangement may be assessed by the provider for each Interconnection Trunk rearrangement ordered, at one-half (1/2) the rates specified in Table 1.

66.2.10.3 If the Interconnection Facility is ordered as Switched Access Service, then the applicable tariffed trunk nonrecurring charges apply instead of the rates from Table 1.

66.2.11 For purposes of compensation between the Parties, CLEC shall adopt the Rate Center areas and Rating Points that the Commission has approved for the ILECs. In addition, CLEC shall assign whole NPA-NXX codes to each Rate Center, subject to State regulatory requirements. If CLEC only obtains thousands blocks instead of whole NPA-NXX codes, those thousands blocks shall remain rated to the Rate Center associated with the donating NPA-NXX code.

66.3 Compensation of non-Local traffic

66.3.1 Percent Local Usage

- a. CenturyLink will determine the jurisdiction of a call if CenturyLink has sufficient call details. When call details are insufficient to determine the jurisdiction for the call, the CenturyLink Communications LLC, will identify in writing the Percent Local Usage (PLU) factor on each Interconnection order to identify its Local Traffic for Reciprocal Compensation purposes. For non-Local traffic, the Parties agree to compensate one another based on the rates included in each Party's access Tariffs. CenturyLink may request CenturyLink Communications LLC's traffic study documentation of the PLU at any time to verify the PLU and may compare the documentation to studies developed by CenturyLink. Should the documentation indicate that the factor should be changed by CenturyLink, the Parties agree that any changes will be retroactive to all traffic which is determined to have applied an inaccurate factor.
- b. In the absence of a written agreement between the Parties stating otherwise, and except as otherwise provided under Section 66.1.2 for VoIP-PSTN Traffic, the PLU shall not be deemed to account for the jurisdiction of any traffic which may appear to be Local Traffic based upon the originating and terminating call detail information, where such call detail information does not accurately reflect the true geographic end points of the call, and the Parties may seek appropriate compensation for such calls notwithstanding such PLU factor.

66.3.2 Traffic originated to or directed to or through an ISP that is physically located outside the originating End User's Local Calling Area and calls to an ISP which are placed on a non-local basis (e.g. toll calls or 8YY calls) are non-Local traffic for compensation purposes and will be compensated at the appropriate Interstate or Intrastate Switched Access Service rates.

66.3.3 VNXX Traffic is not Local Traffic for purposes of intercarrier compensation, and such VNXX Traffic shall not be subject to Reciprocal Compensation. If the Parties exchange VNXX Traffic, a Party that originates or terminates such calls shall be entitled to recover originating or terminating access charges, except that the Party that provides the VNXX Service that enables such VNXX Traffic shall not be entitled to recover access charges for such VNXX Traffic. Both Parties represent and warrant that they are not providing VNXX Service and will not do so unless they provide advance written notice to the other Party. Either Party may perform traffic studies at any time to determine if VNXX Traffic is being exchanged with the other Party, and each Party will provide data necessary to determine the physical, geographic location of customer premise equipment which is associated with an NPA-NXX-XXXX.

66.3.4 Intentionally Left Blank

66.3.5 Unless otherwise required by Applicable Law, in the absence of a written agreement between the Parties stating otherwise, any traffic which is not included within the definition of Local Traffic or otherwise specifically addressed in this Agreement will be compensated at Access Service rates. The right to assess such Access Service charges shall not be

deemed to constitute authorization for CenturyLink Communications LLC, to route any traffic in a manner which is not permitted under this Agreement.

## **67. TRANSIT TRAFFIC**

- 67.1 Transit Service terms in this Agreement are for the delivery of Transit Traffic. Any Jointly Provided Switched Access Traffic that transits the CenturyLink network will not be considered Transit Traffic and any network functions provided by CenturyLink in connection with such Jointly Provided Switched Access will be provided to the IXC at Switched Access Service rates.
- 67.2 When CenturyLink receives an unqueried call from CenturyLink Communications LLC, to a telephone number that has been ported to another services provider, rates applicable to Transit Service will apply in addition to any query rates.
- 67.3 To the extent network and contractual arrangements exist with all necessary parties throughout the term of this Agreement, CenturyLink will provide Transit Services for CenturyLink Communications LLC,'s connection of its End User to a local End User of: (1) other CenturyLink Communications LLC,s, (2) other ILECs (including any CenturyLink ILEC affiliates who may be a Party to this Agreement, other than the CenturyLink ILEC affiliate providing the Transit Service), and (3) CMRS carriers. CenturyLink will only provide a Transit Service where CenturyLink Communications LLC, is interconnected at the same CenturyLink Tandem switch to which the terminating carrier is interconnected. CenturyLink Communications LLC, agrees not to route Transit Traffic to a non-CenturyLink Tandem (i.e., double Tandem Transit Traffic) where the NPA-NXX of the number called is rated within CenturyLink's Tandem serving area, and CenturyLink Communications LLC, shall reimburse CenturyLink for any terminating compensation charged to CenturyLink by a terminating carrier as a result of any such double Tandem Transit Traffic routed by CenturyLink Communications LLC,.
- 67.4 CenturyLink may require separate trunking for the delivery of such Transit Traffic in order to accurately measure and bill it.
- 67.5 In the event Transit Traffic originated by CenturyLink Communications LLC, is blocked by a third party, CenturyLink shall have no obligation to resolve the dispute. CenturyLink Communications LLC, acknowledges that CenturyLink does not have any responsibility to pay, and CenturyLink Communications LLC, indemnifies CenturyLink against any third-party Telecommunications Carrier charges for termination of any identifiable Transit Traffic routed to CenturyLink by CenturyLink Communications LLC,.
- 67.6 Payment Terms and Conditions
- 67.6.1 CenturyLink Communications LLC, shall pay a Transit Service Charge as set forth in Table 1 for any Transit Traffic routed to CenturyLink by CenturyLink Communications LLC,.
- 67.6.2 CenturyLink Communications LLC, shall be responsible for payment of Transit Service charges on Transit Traffic routed to CenturyLink by CenturyLink Communications LLC, and for any charges assessed by the terminating carrier. CenturyLink Communications LLC, agrees to enter into traffic exchange agreements with third-parties prior to routing any
