Re: Ronald R Baird vs. Commonwealth Edison Company
Illinois Commerce Commission 14-0402

Complaint as to billing/charges in Glen Ellyn, Illinois

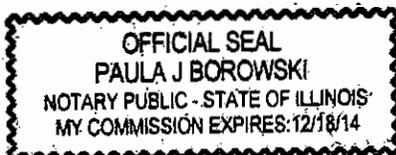

1. I am over the age of 18 and am a resident of the State of Illinois, a licensed electrician a licensed contractor, and a Village Inspector for the Village of Wood Dale. I have been the caretaker of the buildings owned by Ronald R Baird, commonly known as 321 Roosevelt and 315 Roosevelt Road, Glen Ellyn, Illinois for over 20 years, and I have personal knowledge of the facts in the above captioned complaint, and if called as a witness, could testify completely thereto. I am available to provide testimony during this hearing at 630-514-5464, if needed.
2. I suffer no legal disabilities and have personal knowledge of the facts set forth in the Formal Complaint. I was present at the 321 Roosevelt Building and met with a ComEd representative on November 29, 2013. At that time the representative called ComEd to ask how to test for amps. He then took a reading and got a reading of less than 1 amp. In spite of the reading, the representative advised me that the building was drawing a lot of power which made no sense. The representative would not test the meter at that time and location, rather, replaced the meter and advised it would be tested somewhere.
3. I declare that, to the best of my knowledge and belief, the information herein is true, correct and complete.

Executed this 19th day of August, 2014.
