ILLINOIS  
COMMERCE COMMISSION

The signers of the attached Petition respectfully submit this Petition to the Illinois Commerce Commission to communicate their concerns and opposition to the 345 kilovolt Grand Prairie Gateway overhead transmission Project proposed by ComEd.

The property owners on ComEd's Exhibit D are the focus of the Petition Project. Signatures from some family and/or household members are included. The parcels included in the Petition are from Ogle County eastward to the Route 23 area in DeKalb County. Time and distance were limiting factors in inviting full participation in this Petition Project, which started in September, the product of concerned neighbors. Please consider this Petition. Thank you.
