NARRATIVE STATEMENT

The narrative statement in the County of Wayne ETSB's original petition stands the same. There will be a new backup agreement with the Edwards County ETSB, to serve as backup PSAP to the County of Wayne system.

The purpose of the modification is to secure a backup PSAP that has the capability to answer both Wire line and Wireless Enhanced 9-1-1 calls. The Edwards County PSAP currently has this capability. The Edwards County PSAP is located at 50 E Main ST, Albion, Edwards County, Illinois, 62806. The Edwards County PSAP has 2 primary 9-1-1 call taking positions. The Clay County ETSB will no longer serve as a backup for the Wayne County ETSB, per their request, given the approval of this modification request.

An intergovernmental agreement has been agreed to and signed by both the County of Wayne ETSB Chairman and the Edwards County ETSB Chairman.

9-1-1 calls for service for the County of Wayne, which are answered by the Edwards County PSAP under this backup agreement, dispatched in the following manner:

1. 9-1-1 calls for service shall be transferred to the 9-1-1 trunks for Wayne County via the selective router at Casey
2. In the event that the calls cannot be transferred to the 9-1-1 trunks, calls shall be transferred to (618)842-5199 (the 10 digit administrative line answered at the PSAP).
3. In the event 1 and 2 above are not possible, Wayne County will be contacted via radio by radio frequency 154.430.

This agreement is possible, as both the County of Wayne ETSB and the Edwards County ETSB are served by the Casey selective router.
