Adam Lane  
Signature, Notary Public, Illinois

(NOTARY SEAL)

**NOTE:** Failure to answer all of the questions on this form may result in this form being returned without processing.

# FORMAL COMPLAINT

Illinois Commerce Commission  
527 E. Capitol Avenue  
Springfield, Illinois 62701

Reason for complaint:

Now comes Commonwealth Edison AKA ComEd utility company in the State of Illinois, The only company providing Electrical Services in the City of Chicago.

ComEd has provided false information to the Illinois Commerce Commission regarding their attempts to read the meters located at 4500 South Michigan. "They were not given access."

The false allegation of "NO ACCESS" on or about November 20, 2013 ComEd alleges that several attempts were made to obtain a meter reading. See Exhibits ABC

ComEd records show that they were ALLOWED and were able to read the meters continuously during the period in question. All meters located in 4500 Michigan are posted adjacent to each other by six (6) inches. ComEd records (see exhibit D) show **actual readings** for the entire period substantiating that the meter readers were allowed on premises each time that they arrived and escorted to the meters. As stated in our original complaint dated January 3, 2014 (complaint no. 14-0060) that was never properly adjudicated.

## **Disputed Billings- Account No. 0183096175**

On or about November 4, 2013

Now comes fabricated billings with manufactured usage amounts for a two (2) year period in the amount of about 8,000 and additional late and other charges. This unsubstantiated billing amount of \$8000+ is for the 2<sup>nd</sup> Floor only. This is unsubstantiated and impossible.

ComEd and our records show usage for the entire building amounts to an average of less than \$300.00 per month.

We returned disputed account meter, April 2, 2014 in order to prove that only one meter provides services to the building: Exhibit E. All meters sit adjacent to each other on one board, actual reading were read each month

**“No Access” is completely false:**

They have been given monthly access without failure for twenty years. It is very import to us to avoid estimated bills.

Our meter Board is three feet long containing all meters, the malfunctioning meter is eighteen inches from our functioning meter which we have continuous readings during this same two year period in question, what ComEd is claiming is virtually impossible. The document letters we have claiming NO ACCESS can be proven untrue simply by looking at the meter readings on the functioning meter 18” apart from the meter in question.

**Transferring/Combining a disputed account to an accepted and paid undisputed account and sending shut off notices:**

ComEd combining of the bills, by transferring the disputed bill to the paid account: Transfer of the 11,000 fabricated billings to the original bill which has been kept current is a form of deceptive practices and money laundering. Just like taking dirty and tainted money and transferring it to clean money.

Com Ed the monopoly by placing this tainted bill charges on our current clean bill charges is fraud and an attempt the cover up their illegal activities and charges.

Also ComEd the monopoly is participating in mail fraud by sending the US Mail in the furtherance of fraud and deceptive practices. ComEd the monopoly is putting the not for profit in a diligent position which none has existed for years, giving them the right to discontinue our services and shut down our not for profit which is a form of extortion in violation of the US Federal RICO statue. (Racketeering, Influenced, corrupt organization).

**What we want the ICC to do:**

We pray for a fair hearing, true billing by ComEd, monopoly. As a long term customer, at the mercy of ComEd for 45+ years and no way out. ICC must remain a fair tryer of facts and resist the tremendous power and influence of ComEd, the monopoly and Attorney Goldstein. Stop sending shut off notices while in dispute.

The particular relief we are requesting is to rescind approximately \$12,000 in back billing over a 3 year period resulting from a malfunctioning meter and also the removal of four other meters not in use including the Chicago Urban Leagues parking lot lights meter that attached to 4500 building. In addition, Com Ed electric lines runs along the roof of the building which prevents repairs, then place an electric digital meter on a wall outside of the building. Finally, that we not be retaliated against for raising a valid complaint and further victimized.
