AMEREN ILLINOIS COMPANY D/B/A AMEREN ILLINOIS

DOCKET No. 14-0390

REBUTTLE OF AMEREN DOCUMENT DATED SEPT. 5, 2014

LINE:120 TO 131

By June 30 the final grade was within 6", mostly needed to put dirt back in where dirt had been removed for the driveway.

LINE: 149 TO 158

The request to replace the gas line was used to dig up the yard. The line replaced on June 20 2014 did not require any location of the old line.

CHIEF CLERK'S OFFICE

2014 DEC - 8 A 11: 18

ILLINOIS COMMERCE  
COMMISSION

LINE: 164 TO 169

The gas line is still shallow, The crew doing the digging did not check where the line had been cut, they stopped short of the repair.

LINE: 170 TO 171

The crew filled the holes but did not reseed the holes. Seed and straw was done this fall when the rest of the yard was done.

LINE: 172 TO 179

The line is still 3" deep. Ameren has not performed any additional work to adjust the depth of the gas line.

DOCKET 14-0390

LINE: 217 TO 220

The June 29, 2013 charge to Mr. Frey for repair was \$190.00. On July 29, 2013 the repairman was gone within 1 hour and I was charged \$678.59.

LINE: 232 TO 237

After the July 29, 2013 repair not a lot of dirt was removed or added to the front yard as can be seen by comparing the grade shown on Ameren exhibit photos 1.4 and 1.5. On November 30, 2014 I took photos of where (note gas line location flags) the gas line is with a 3' yard stick to show that the elevation is almost the same as it was on Jun20, 2013. Since June 20, 2013 there has not been 33" of dirt removed nor 22" installed. The gas line is still where it was left after the repairs on July 31, 2013.

LINE: 274 TO 276

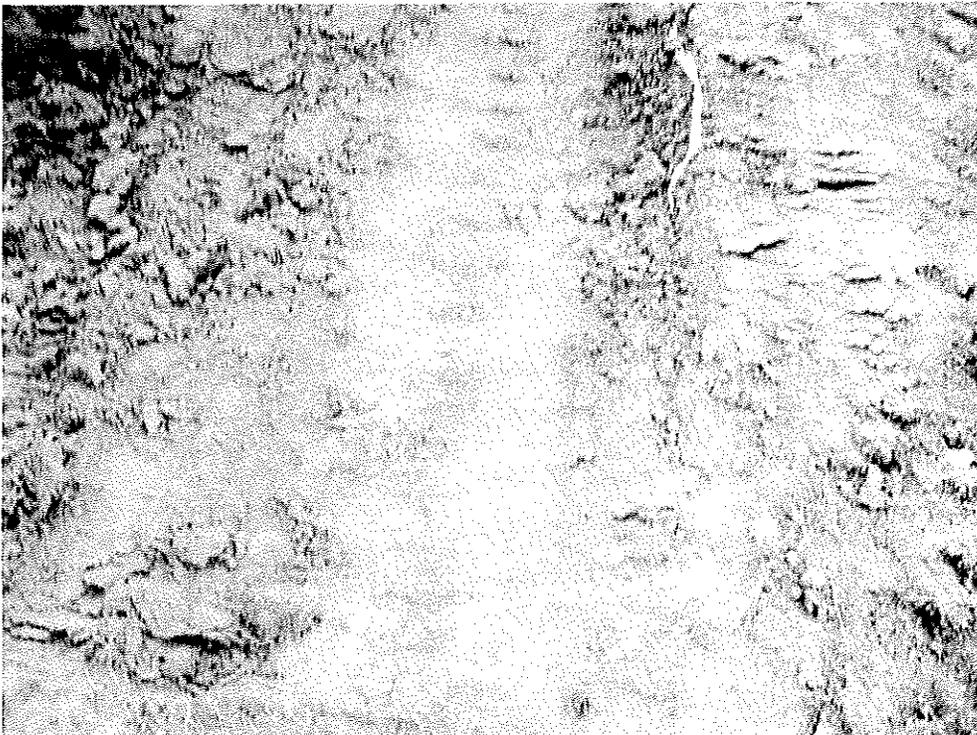

Yes the grade is almost the same on June 20, 2013 as it was on July 31, 2013 as it is on November 31, 2014. Again see Ameren exhibits 1.4 and 1.5 and my photos taken on November 31, 2014.
