DATE: December 23, 2014
SUBJECT: Commonwealth Edison Company

Informational Statement pursuant to Section 6-102(d) of the Illinois Public Utilities Act in connection with the proposed issuance and sale of various securities in one or more series all in an aggregate principal amount of up to \$1,319,000,000.

The Commission entered a Final Order in this docket on February 23, 2012. In that Order, the Commission approved the request of Commonwealth Edison Company ("ComEd") to issue various securities up to a collective total of \$1,319,000,000 for the purpose of refinancing outstanding evidences of indebtedness previously approved by the Commission. On November 24, 2014, ComEd filed a petition to reopen this proceeding in order to extend the authority originally granted on February 23, 2012 from February 27, 2015 until June 30, 2015. On December 19, 2014, ComEd filed an amended petition requesting the same authority but extending the timeframe from February 27, 2015 until February 27, 2017.

Staff reviewed the filings and recommends granting the petition to reopen the record and issuing the attached Order.

Accordingly, I recommend grant of the petition and entry of the attached Order.
