**AMENDED APPLICATION FOR CERTIFICATE  
OF PUBLIC CONVENIENCE AND NECESSITY**

TO THE ILLINOIS COMMERCE COMMISSION, SPRINGFIELD, ILLINOIS:

Illinois-American Water Company (“IAWC”) hereby requests that the Illinois Commerce Commission enter an order pursuant to Section 8-406 of the Illinois Public Utilities Act, 220 ILCS 5/ (the “Act”), issuing a Certificate of Public Convenience and Necessity to IAWC for three areas in DuPage County, Illinois in order to: (i) provide water and sanitary sewer service to two areas contiguous to IAWC’s current Certificate of Convenience and Public Necessity, at the request of two property owners seeking public water and sanitary sewer service from IAWC, and (ii) obtain approval for provision of water and sanitary sewer service to two current customers that IAWC has discovered are located on a parcel just outside its certificated area (such areas encompassing the two new customers and the current customers will be referred to hereafter as the “Expanded Certificate”). In support of its Amended Application, IAWC states:

1. IAWC is a company duly incorporated under the laws of the State of Illinois, and is duly authorized to do business in the State of Illinois. IAWC is a public utility within the meaning of the Act, and is now engaged in the business of furnishing potable water and sanitary sewer service to the customers in the State of Illinois.

2. The post office address of IAWC is 300 North Water Works Drive, Belleville, Illinois 62223.

3. IAWC provides water and/or sanitary sewer service in several counties in Illinois, including potable water and sewer service in DuPage County.

4. IAWC's current certificated area of service in DuPage County was approved by the Commission in a number of dockets, the most recent of which was Docket No. 08-0542 (IAWC's current certificated area of service in the DuPage County region will be referred to hereafter as the "Current Certificate".)

5. IAWC seeks authority to provide service to two new areas that are contiguous to areas served within its Current Certificate. The proposed areas for which certification is requested are: an area in IAWC's DuPage service district seeking both water and sanitary sewer service (as set forth on the map and legal description attached hereto as Exhibit A, designated as "Parcel 1") and an area in IAWC's Valley View service district seeking water service (as set forth on the map and legal description attached hereto as Exhibit B).

6. IAWC has been requested to provide service by the owner of the property in each new service area. The request by the property owner in the DuPage area is attached as Exhibit C, and the request by the property owner in the Valley View area is attached as Exhibit D.

7. The above-referenced DuPage district property and Valley View district property are not currently served by any other water service or sanitary sewer provider. Therefore, no municipality, water or sewer utility or other entity currently serves or is able to serve the Expanded Certificate area.

8. After IAWC filed its application in this docket, it discovered that it has two current customers located on a parcel just outside its current certificated area in the DuPage service district. The parcel is depicted as “Parcel 2” on the Exhibit A map and legal description.

9. The municipalities whose corporate boundaries lie within one and one-half miles of the proposed Expanded Certificate area are the municipalities of Naperville, Lisle, and Downers Grove (for the proposed new area in IAWC’s DuPage service district), and Glen Ellyn and Lombard (for the proposed new area in IAWC’s Valley View service district), and a copy of this application is being mailed to those municipalities as required by 83 Ill. Admin. Code 200.150(b).

10. IAWC plans to charge all customers within the proposed Expanded Certificate area the rates that are in effect for IAWC’s Chicago Metro district. Such customers will be subject to IAWC’s rules, regulations and conditions of service on file with the Commission.

11. The source for the water provided to the proposed Expanded Certificate is purchased water.

12. IAWC does not believe that any new easements are necessary at this time to provide service to the proposed Expanded Certificate area. However, if it becomes necessary at a later date to acquire easements, IAWC will comply with 83 Ill. Admin. Code Part 300.

13. IAWC is capable of efficiently managing and supervising the provision of water service and sewer service to the proposed Expanded Certificate area. IAWC is capable of financing any new construction in the proposed Expanded Certificate area without significant adverse financial consequences to IAWC or its customers, although no new construction will be performed by IAWC in connection with the proposed Expanded Certificate area.
