

Subject: Fw: Ameren Proposed Route Adjustment

On Tuesday, March 24, 2015 5:09 PM, Deborah Small <deborah.small@contractlandstaff.com> wrote:

Mr. Traster,

Below is a proposed route adjustment that would eliminate the impact to your trees. Approval of both of your neighbors will need to be secured. If either reject this proposal, we would be unable to proceed with this proposed adjustment.

The second image below shows the originally proposed alignment and tract names.

I have gathered from our discussion if the route can be adjusted from the trees you would be ready to sign. Are there any other issues? If both neighbors agree to the route adjustment will you be ready to schedule a time to meet for signing?

Please advise.

Thanks,
