Kathy, this one should be docketed as a progress report in T14-0080.

Calvin, I recently received the below e-mail inquiry regarding status of the named project. Actually, this Commission surface reconstruction improvement involves 2 crossings in Batavia: Laurel Street (AAR/DOT #069 700 B, milepost 6.25), and Kirk Road/CH 77 (AAR/DOT #069 708F, milepost 7.74). These 2 crossings are the subject of Stipulated Agreement 1774 and Commission Order T14-0080, entered on 8/13/14. The Order required the work to be completed by 5/13/15. Absent requested status/completion reports, or any filings for an extension of time, we are unable to update the City. Please respond as soon as possible.

Thanks,
Dan Drewes

Mr. Drewes,
Attached is the Resolution the City passed in support of proposed rail crossing improvements at Laurel Street in the City of Batavia. Can you please provide an update as to the status of this project? Will it be constructed still in 2015?

Thank you
Gary Holm, PE
Director of Public Works
City of Batavia

Mr. Drewe,
I'm writing to follow-up on our phone conversation from yesterday. Attached are three photos of the Laurel St. crossing that I spoke of. As you can see the crossing is in poor condition. Admittedly Laurel St. is a low volume residential street and probably not high on the Railroad's priority list but it does represent a maintenance issue for us. Thank you for your consideration.

Gary Holm, PE
