Re: Application for Certification as an Installer
of Distributed Generation Facilities

Meister Electric, Inc. has been a union electrical contractor performing residential, commercial and industrial wiring in central Illinois since 1970. The owner, Paul Meister, attended classes in Norman, Oklahoma in 1982 where he was trained to connect distributed power from wind turbines to the power grid. (Bergey Windpower / 405.364.4212 / www.bergey.com)

Since then we have installed numerous wind and solar systems that have been grid tied to various utility companies in Illinois. Because we are a union shop, all of our electricians must be hired from the union hall. I have personally trained and supervised all of the electricians that we have used over the years for each distributed power connection that we have installed.

Thank you
