RE: Plintron Technologies USA LLC
Response to Notice of ALJ
Docket No. 16-0355

Dear Ms. Rolando:

On June 20, 2016, Plintron Technologies USA LLC ("Plintron" or "Applicant"), a Delaware limited liability company, filed an Application with the ICC for a Certificate to Become a Wireless Telecommunications Carrier. On June 27, 2016, Honorable ALJ Riley issued Notice of Ruling ("Notice") requesting additional information. This filing is Plintron's response to that notice.

Judge Riley asked that the Applicant identify whether Federal Communications Commission registration number ("FRN") 0024565319 is a construction permit or an operating license and requested a copy of the registration. This is the standard FCC registration filed by all telecom companies to provide interstate services. A copy has been attached, as requested.

Judge Riley asked that we identify the acronym MVNO and explain what MVNO services are. MVNO stands for Mobile Virtual Network Operator. It is a wireless communications services provider that does not own the wireless network infrastructure over which the company provides services to its customers. It means that the Applicant is a wireless reseller.

If you have any questions or if you need additional information, please contact me at (405) 755-8177, ext. 103 or by email at mdean@telecompliance.net.

Sincerely,

A handwritten signature in black ink that reads "Matt W. Dean". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Matt W. Dean
Regulatory Agent
