The purpose of this Accessible Letter is to inform you of revisions to **CLECALLO2-104**, which was issued on August 8, 2002.

Effective **October 28, 2002**, the Central Office (C.O.) Sync Testing Trial will convert to a standard, voluntary product offering in all 13 SBC states ("SBC-13STATE").

This product offering is being made available in conjunction with Line Sharing (the HFPL) only. C.O. Sync Testing will verify the CLEC's data signal on the HFPL during provisioning and/or for maintenance tickets from the CLEC's collocated DSLAM to the last cable pair leaving the SBC – C.O. Each CLEC is limited to one type of xDSL service and must provide a test set, which will be utilized by SBC-13STATE to test CLEC's identified technology. Test sets must come equipped with instructions, processes for use, CLEC name, ACTL (11 characters) and AECN code.

Any CLEC currently participating in the trial, will have to sign an Amendment to its Interconnection Agreement or a Standalone Agreement by October 25, 2002 if it wishes to continue to receive HFPL CO Sync Testing service on October 28, 2002. CLEC may contact its Account Manager in order to obtain SBC-13STATE's Attachment or Stand-Alone Agreement for HFPL C.O. Sync Testing – Maintenance and Provisioning or Maintenance Only.

SBC-13STATE reserves the right to make any modifications to or to cancel the above information. Should any modifications be made to the information, these modifications will be reflected in a subsequent Accessible Letter. Should the offering be canceled, SBC-13STATE will send notification at the time of cancellation. SBC-13STATE will incur no liability to a CLEC if the information above is modified or canceled by SBC-13STATE.
