SUMMARY STATEMENT

Exelon Energy submits this report in compliance with the Public Utilities Act, Section 16-127, Environmental Disclosure. The quarterly disclosure provides a breakdown of known sources of electricity and the resulting emissions. All sources and emissions data in this report are based on the annual performance ratings of electric generators who supply power to Exelon Energy customers. The report period for this statement is April 1, 2005 through March 31, 2006.

The environmental reporting in this document is in accordance with the requirements as outlined in ICC Title 83, Part 421, Section 421.30:

- Exhibit A—Sources of Electricity Table
- Exhibit B—Sources of Electricity Supplied Pie-Chart
- Exhibit C—Emissions and Nuclear Waste Table

Exelon Energy Company has actively participated in consumer education, market assessment, and supply services in Illinois' newly deregulated electric market since January 1999. We were certified as an Alternative Retail Electric Supplier in September 1999. On October 1, 1999, we provided electric supply service to some of the first retail customers of the restructured Illinois electric market. We continue to evaluate the electric market for growth opportunities.

Exelon Energy will provide the information released in this disclosure to all existing customers via a bill insert. The bill insert will be distributed in the July 2006 billing cycles.
