**FOOTNOTES**

1. All energy purchased in the last 12 months by DTE Energy Supply on behalf of our customers was supplied by the Midwest Independent System Operator (MISO). The ultimate source of electricity is determined by the way MISO dispatches its generators. It is not possible to determine the amount of electricity produced by the various generators dispatched by MISO to serve DTE Energy Supply's specific load.

2. 100% of the total electricity supplied was purchased from other suppliers and the amounts of emissions and amount of nuclear waste attributable to producing this electricity is not known and is not included in this table.

The disclosure of this information is required under Section 16-127 of the Electric Service Customer Choice and Rate Relief Law of 1997 and the rules of the Illinois Commerce Commission, 83 Ill Admin.
