

ComEd Territory Environmental Disclosure Statement

This environmental disclosure statement is being given to you in accordance with Section 16-127 of the Electric Service Customer Choice and Rate Relief Law of 1997 and Illinois Commerce Commission rules under 83 Ill Admin Code 421.

Nordic Energy Services, LLC reports fuel sources and emissions data provided by PJM to its customers on a quarterly basis. This allows our customers to see our sources of power and compare that against other retail electric suppliers servicing the region. The mix of power sources is subject to change and is updated on a quarterly basis by PJM.

PJM Residual Mix Sources of Electricity Supplied For the 12 months ending June 30, 2011

This chart shows how PJM distributed the resources from the Residual Mix to produce electricity in the PJM region

Average Amounts of Emissions and Amount of Nuclear Waste per 1000 kilowatt-hours (kwh) Produced from Known Sources ¹ for the 12 months ending June 2011

Air Emissions

The following shows the average nitrogen oxide (NOx), sulfur dioxide (SOx), and carbon dioxide (CO2) emissions for the PJM residual mix utilized by Nordic Energy Services LLC as compared to the overall supply mix

Emission Type	Amount
Carbon Dioxide	1,148 lbs.
Nitrogen Dioxide	1..0708 lbs.
Sulfur Dioxide	3.6264 lbs.
High Level Nuclear Waste	0.006 lbs.
Low Level Nuclear Waste	0.0004 ft lbs.

The PJM System average emission levels are based on the PJM Generation Attributes Tracking System (GATS) system mix data for the 2nd Quarter ending 2011.

Additional information on companies selling electrical power in Illinois may be found at the Illinois Commerce Commission's World Wide Web site www.icc.state.il.us.

If you have questions, call Nordic Energy Services toll free at **877-808-1022**.

¹ One hundred percent of the total electricity supplied was purchased from other suppliers and the amount of nuclear waste attributable to producing this electricity is not known and is not included in this table.
