

ILLINOIS ENVIRONMENTAL DISCLOSURE LABEL

The disclosure of this information is required under Section 16-127 of the Electric Service Customer Choice and Rate Relief Law of 1997 and the rules of the Illinois Commerce Commission, 83 Ill Admn. Code 421.

Spark Energy, L.P. (Spark Energy) reports to its customers, fuel sources and emissions data provided by PJM Interconnection (PJM), the local regional transmission organization, on a semi-annual basis. This allows our customers to see our sources of power and compare that against other retail electric suppliers servicing the region. Spark Energy does not provide power from any particular generating facilities; rather, the PJM residual power purchased by Spark Energy consists of electricity from a variety of power plants that PJM then transmits throughout the region as needed to meet the requirements of all customers in the PJM territory. Electricity generation is the process of generating electric energy from other forms of energy. Although electricity is a clean and relatively safe form of energy to use, there are environmental impacts associated with the production and transmission of electricity.

This product mix is subject to change and is updated on a quarterly basis.

*The data shown above are values from the 2nd Qtr. 2010 through 1st Qtr. 2011 PJM System Mix and do not necessarily reflect the energy that Spark Energy, L.P. will supply.

ILLINOIS ENVIRONMENTAL DISCLOSURE LABEL

AVERAGE AMOUNTS OF EMISSIONS PER 1000 KILOWATT-HOURS (kWh) PRODUCED FROM KNOWN¹ SOURCES FOR THE 12 MONTHS ENDING MARCH 31, 2011

AIR EMISSIONS	lbs/kWh
Carbon Dioxide	1154.6
Nitrogen Oxides	1.1
Sulfur Dioxide	4.8

¹100% of the total electricity supplied was purchased from other suppliers and the amounts of Emissions and nuclear waste attributable to producing this electricity is not known and is not included in this table.
