Additional information on companies selling electrical power in Illinois may be found at the Illinois Commerce Commission's World Wide Web site. <sup>1</sup>The data above are the values from April 1, 2015 through March 31, 2016 PJM System Mix and do not necessarily reflect the energy that ILG&E will supply. <sup>2</sup>One hundred percent of the total electricity supplied was purchased from other suppliers and the amount of nuclear waste attributable to producing this electricity is not known and is not included in this table.

Illinois Gas & Electric ("ILG&E") is not a utility or affiliated with a utility. ILG&E currently offers service to most customers falling within residential and small business rate classes. ILG&E will not accept enrollments for net metered accounts. Maryland Gas & Electric and Pennsylvania Gas & Electric are registered trade names owned in part by Energy Services Providers, Inc. and U.S. Gas & Electric, Inc.

For our CTG&E customers, CT Licensed Electric Suppliers are required to post the highest and lowest generation service charge rate that was billed to their customers under a variable rate offer in each of the preceding 12 months. You can find this information on Connecticut Gas & Electric, Inc.'s website at [http://www.ctgande.com/past\\_variable\\_rates/](http://www.ctgande.com/past_variable_rates/) or on the supplier Rate Board that is maintained by the Public Utilities Regulatory Authority at [www.energizect.com/compare-energy-suppliers](http://www.energizect.com/compare-energy-suppliers).
