Treasurer

**CEDAR WATER COMPANY, INC.**

**Code Part 280.15 Implementation Plan**

Pursuant to the Code Part 280.15 Implementation Plan we are furnishing information regarding Cedar Water Company, Inc.

The company owns a water system utility which serves 4 local subdivisions near Lake Braken south of Galesburg, IL. Cedar Water currently has 73 water service connections serving 67 residential customers. The billings are sent quarterly with a flat rate per month plus a rate per 1000 gallons for metered usage. The company uses spreadsheets and ledger cards for billing customers and computes late fees which are added to the billings when applicable.

Heavily delinquent customers receive a shutoff notice which has been a successful method in collecting delinquent payments.

We acknowledge receiving a copy of the Administrative Code rules governing eligibility for service, deposits, billing, payments, refunds and disconnection of service and will make appropriate changes in procedures and in the wording on the invoice to conform to the rules. We currently cannot estimate the cost of implementing this new ruling, but propose to have the implementation of changes completed by May 31, 2106.
