

Approach for One Percent (1%) PM WOs in PassPort (1% portions are All-In)

For **SAIFI** circuits (assumes inspection is being performed in year prior to construction year):

Due this year still (2010) and the upcoming year (2011):

Use a **non-credit occurrence** WO for the **mainline (plus any identified taps)**, example WO title:

Z3340 2011 1% SAIFI ALL-IN MAINLINE ONLY (Use WO Group = INSP1%11)

Use the **credit occurrence** WO for the **taps**, example WO title:

Z3340 2011 HIP TAPS ONLY 12KV FEEDER INSPECTION (Use WO Group = INSP-PF)

If the WO is due in the next year (2011), and it is still year 2010, update the Need Date on task 01 to 12/31/10 so MFIS can recognize it, but leave the WO due date at 12/31/11.

Due in any year after 2011:

Use a **non-credit** WO and set the date to 12/31/10, example WO title:

Z3340 2011 1% SAIFI ALL-IN MAINLINE PLUS FROM FUSE 123
(Use WO Group code = INSP1%11)

For **CAIDI** circuits (same concept works for CAIFI only circuits) (assumes inspection in year of construction):

Due in 2011 (behind device numbers):

Use a **non-credit** WO for the **1% taps** and set the due date to 12/31/11, example WO title:

031X043 2011 1% CAIDI ALL-IN FROM FUSE 1961489 & FUSE 1961490
(Use WO Group = INSP1%11)

If the 1% circuit says to patrol from breaker, this means patrol the Mainline, so use a non-credit WO with due date 12/31/11 as above, but the title will be like:

031X043 2011 1% CAIDI ALL-IN MAINLINE ONLY (Use WO Group = INSP1%11)

Note, some CAIDI circuits will list multiple devices, of which one of them may be the breaker, example WO title:

031X043 2010 1% CAIDI ALL-IN MAINLINE PLUS FROM FUSE 1961489
(Use WO Group code = INSP1%11)

Use the **credit** WO for the **rest of the circuit**, example WO title:

12KV FEEDER INSP HIP EXCEPT FROM FUSE 1961489 & FUSE 1961490
(Use WO Group code = INSP-PF)

If the 1% circuit says to patrol from breaker and behind fuse 1961489, example WO title for the remainder of the circuit:

12KV FEEDER INSP HIP EXCEPT MAINLINE & FROM FUSE 1961489
(Use WO Group code = INSP-PF)

Due in any year after 2011:

Use a **non-credit** WO for the **1% Taps/Mainline** and set the due date to 12/31/11, use above example WO titles as appropriate and abbreviate where necessary, use WO Group INSP1%11.
